

## Memo

**Date:** 11/29/2007

**To:** Ron Courvoisier / Chief of Maintenance

**From:** Jim Sorgatz

**RE:** RV Park Water Lines / Loss

---

Ron,

As you are aware we have had some water line ruptures this is year in the RV Park. We lost over 40,000 gallons on 2 breaks. The first line break we lost about half of the last break which I believe was due to guests alerting us when it was witnessed. The last break there was no one in the area to witness it.

Could you instruct or set a schedule for staff to make runs through the RV park in the AM and then again in the PM of each day?

All that we would need them to look for would be wet areas or the presence of water surfacing the ground.

If any of the above is present we would need them to locate me ASAP.

If you could set this up it would be a great help and would save us significant water if we have future line breaks. This would only need to be from September 15 – December 10<sup>th</sup> and then again April 30<sup>th</sup> – May 15<sup>th</sup> annually.

If you need for me to explain this to grounds staff please advise.

Thank you

Jim Sorgatz

Licensed Operator

Mormon Lake Properties LLC Water System.
