Re: Styrene (CASRN 100-42-5); Supplemental to TSCA 8(e) Submission for An Inhalation Two-Generation Reproductive Toxicity Study of Styrene in Rats, Including Developmental Neurotoxicity Assessment of the F₂ Generation

Dear Sir or Madam:

On behalf of its member companies¹, the Styrene Information and Research Center, Inc. (SIRC) is submitting information under Section 8(e) of the Toxic Substances Control Act (TSCA) to supplement SIRC's initial filing of September 16, 2002, which is identified by TSCA 8(e) No. 8EHQ-02-15197. The attached study is the final report from *An Inhalation Two-Generation Reproductive Toxicity Study of Styrene in Rats, Including Developmental Neurotoxicity Assessment of the F₂ Generation*, performed by WIL Research Laboratories, Inc., and was received by SIRC members on July 15, 2003. Neither SIRC nor any member company has made a determination as to whether a significant risk of injury to human health or the environment is actually presented by the findings.

Specific questions concerning this submission should be directed to my attention at 703-741-5010.

Very truly yours,

Jack Snyder
Executive Director
