Mr. R. J. Dowling
Product Safety Specialist
Uniroyal Chemical
Elm Street
Naugatuck, Connecticut 06770

84940000123

Dear Mr. Dowling:

I have received your letter of June 30, 1982, on Sodium 2(3H)-Benzothiazothione. This information will be reviewed by the ITC and its Technical Support Contractor when the chemical comes up for detailed review by the Committee.

I want to take this opportunity to thank Uniroyal Chemical Company for its continued cooperation in this program. Information received from your company and many others in the chemical industry has been of great value to the ITC and its technical support contractor. The industry has submitted a considerable amount of unpublished data on chemicals, which provided the ITC with answers to numerous questions that could not be answered by relying only on the open literature.

Sincerely yours,

Martin Greif
Executive Secretary
