Re: EPA Document Control Number 8EHQ-0190-0863

Dear Sir:

Under cover letter dated January 9, 1990, The Upjohn Company provided you with a draft report entitled "Preliminary Assessment for an Epidemiological Study on Employees at the North Haven Fine Chemicals Plant."

Considerable time and effort has been spent by the company and its consultant in conducting a follow-up study of the workforce. The purpose of this letter is to provide you with a brief status report and estimated time for submission of the final report.

Virtually all data collection and analysis has now been completed. We anticipate a rough draft of a final report to be prepared by the end of the month. That draft will be subjected to review by Upjohn, the consultants, and will be peer reviewed. We anticipate that any necessary revisions, rewrites, or additional data development that may be deemed appropriate following this review will be completed and a final report issued on or before August 31, 1995.

A copy of that report will be forwarded to you promptly upon completion. In the meantime, please contact the undersigned if you have questions, comments, or would like additional data.

Sincerely yours,

Jeffrey S. Mehring, Ph.D.  
Program Manager  
Corporate Environmental Health Sciences
