STUDY REPORT AMENDMENT NO. 1

EFFECTIVE DATE: NOVEMBER 2, 1987

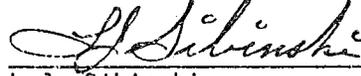

Study Title: Two Year Oral (Diet) Toxicity/Oncogenicity Study of
Fluorochemical FC-143 in Rats

RIKER Experiment No.: Q281CR0012

The Table of Contents and the titles for individual clinical chemistry values for the males (Table 14; pages 66-70) and females (Table 15; pages 73-77) should read "Individual Plasma Chemistry Values"

Reason: This was an inadvertent typographical error only and does not change the interpretation of the clinical data.
