Dear Sir or Madam:

In accordance with the reporting requirements of TSCA Section 8(e), Hoechst Celanese Corporation hereby submits the preliminary results of three aquatic toxicity tests performed on the following chemical substance: 3-(2H-benzotriazole-2-yl)-1,1,1'-tris (4-hydroxyphenyl) ethane (the chemical abstracts number is unknown).

The 96 hour LC50 for the fathead minnow is 0.16 ppm.
The 96 hour LC50 for rainbow trout is 0.35 ppm.
The 48 hour EC 50 for Daphnia magna is 0.40 ppm.

The completed reports will be forwarded to EPA upon receipt. The use of this substance is limited to R&D activities.

This submission contains no confidential business information.

If any further information is required, do not hesitate to contact Dr. Richard A. Jourdenais, Manager, Product Stewardship at 908-231-3746.

Sincerely,

Susan P. Engelman
Vice President, Environmental, Health &
Safety Affairs
