Subject: Notice in Accordance with Section 8(e): Results of an Acute Toxicity Study in Rainbow Trout (*Oncorhynchus mykiss*) with a Formulation Containing Two Active Ingredients: (1) [REDACTED] and (2) [REDACTED]

Dear Sir/Madam:

[REDACTED] is submitting results of an Acute Toxicity Study in Rainbow Trout (*Oncorhynchus mykiss*) with a Formulation Containing Two Active Ingredients: (1) [REDACTED] and (2) [REDACTED], conducted by [REDACTED]. The substance is a formulation.

The test was conducted in a static system over 96 hours according to the following test guidelines: EPA, Para. 72-1, 1982; Commission Regulation (EC) No. 440/2008, Appendix V, C1; OECD 203.

The following nominal concentrations were tested: 0, 0.046, 0.1, 0.22, 0.46 and 1.0 mg/L.

All test solutions were visibly clear over the entire exposure period. The analytically determined concentrations of the test item in the test water were in a range of $\pm 20\%$ of the nominal concentration.

The following effect concentrations (mg/L) were obtained:

Point estimate (lethality)	Observation time (hours after start of exposure)			
	24 hours	48 hours	72 hours	96 hours
LC50 (nominal concentrations) (95% confidence limits)	0.148	0.068	0.068	0.068

Explanation:
LC50 = median lethal concentration

[REDACTED] understands that reporting of results from this study under TSCA 8(e) is in accordance with EPA's policy.

Please note that a confidential version of this letter is enclosed, treating the chemical identity and company identity as Confidential Business Information.

A Confidentiality Substantiation Questionnaire is being submitted for the substance.

Sincerely,

Enclosures
