U.S. Environmental Protection Agency  
1201 Constitution Ave., NW  
Washington, DC 20004

Dear 8(e) Coordinator:

PROPANE, 1,1,1,3,3,3-HEXAFLUORO-  
CAS # 690-39-1

This letter is to inform you of the results of a biodegradation test with the above referenced test substance.

A biodegradation test was performed on the test substance according to OECD Guideline 301D. The average percentage biodegradation of the test substance by dissolved oxygen measurements was 15%, 14% and 16% after 5 days, 15 days and 28 days from initiation of incubation, respectively. However, the percentage residue of the test substance by GC analysis was about 100% after the termination of the incubation, which suggested that the test substance was not biodegradable by microorganisms.

This information is submitted in accordance with current guidance issued by EPA indicating EPA's interpretation of Section 8(e) of the Toxic Substances Control Act or, where it is not clear that reporting criteria have been met, it is submitted as a precautionary measure and because it is information in which EPA may have an interest.

Sincerely,

S. Satheesh Anand, Ph.D., DABT  
Senior Research Toxicologist
