Dear Mr. Greif:

Re: Ethyl Chloride

Air Products and Chemicals, Inc. is a processor of ethyl chloride but does not manufacture ethyl chloride. Volume on an annual basis is in the range of 100,000 to 200,000 pounds.

We believe that the majority of our customers redistribute the product for topical anesthetic applications.

We await your response if you feel we can provide additional needed information.

Very truly yours,

Eugene I. Handwerk, Coordinator
Toxicology & Regulatory Compliance
