Dear Sir/Madam:

The purpose of this letter is to inform you under Section 8(e) of TSCA of the preliminary results recently obtained from a study entitled "AERO® 5100 Promoter - Skin Sensitization To The Guinea Pig" conducted with a commercial material which contained ~98% Carbamothioic acid, 2-propenyl-, O-(2-methylpropyl) ester [CAS Number 86329-09-1].

The contract laboratory has issued a draft report, which showed clear evidence of delayed contact hypersensitivity in 13/20 animals.

Once the final report is received, we will forward a copy of the report for your reference.

Please direct all communications on this subject to Patricia Ann Vernon, Product Regulatory Compliance Manager, Asia-Pacific at the address above or call her at (973) 357-3375.

Sincerely,

Suzanne J. Sherman, M.D.
Corporate Medical Director
