SUBJECT: TSCA 8(e) SUBMISSION

Dear Sir or Madam,

is submitting certain data which we believe to be reportable under TSCA 8(e). This information concerns S-1955, an experimental insecticide and miticide, identified as S-1955 has been assigned CAS Number . S-1955 has purposes on behalf of has imported S-1955 solely for R&D testing

2-week Preliminary Oral Toxicity Study with S-1955 in Dogs.

has recently completed a preliminary oral toxicity study with dogs. S-1955 was administered daily by oral capsule to beagle dogs (two/sex/group) at doses of 0 (control), 10, 30, and 100 mg/kg/day for two weeks. Two males and one female in the highest dose group showed signs of convulsions. One female and one male died on day 14. In addition, tremor, salivation and/or hypoactivity were observed in other animals receiving this dose level. For those animals receiving 30 mg/kg/day, slight decreases in food consumption were observed, but no neurotoxic signs were observed. Histopathological examinations have not yet been performed on the animals.

Should you have questions concerning this submission, please do not hesitate to contact me at by telephone, by telefax or via e-mail through
