

QUESTION: If the cost estimate was adjusted for inflation in May 1982, should it be adjusted when the annual update of documents for the financial test is required to be Submitted by March 31, 1983?

ANSWER: The cost estimate is only adjusted for inflation annually in May (unless the estimate was required to be revised due to a change in the closure plan). Hence the update for the financial test would show the same cost estimates as figured in May 1982.
