

9441.1984(23)

RCRA/SUPERFUND HOTLINE SUMMARY

JULY 84

3. Smelter slag waste buried around 1900 is currently being excavated.
Is this waste excluded under 261.4(b)(4)?

The exclusion in §261.4(b)(4) covers boiler slag (molten bottom ash) but does not cover smelter slag. The smelter slag would probably fall under the mining exclusion (§261.4(b)(7)) as the processing of ores and minerals.
