[A-10-FRL 2084-2]

**Approval and Promulgation of Implementation Plans; Designation of Areas for Air Quality Planning Purposes; Attainment Status Designations; Oregon**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

**SUMMARY:** EPA today approves: (1) The total suspended particulate (TSP) control strategies for Portland and Eugene-Springfield; (2) a revision to the ozone control strategy for Salem; (3) a revision to the operating rules for the Portland motor vehicle inspection program; and (4) a revision to the boundary of the Portland secondary TSP nonattainment area. The area-specific control strategies and operating regulations for the motor vehicle inspection program were submitted by the Oregon Department of Environmental Quality (DEQ) as revisions to the State Implementation Plan (SIP) pursuant to the requirements of Part D of the Clean Air Act (hereinafter referred to as the Act). The revision to the Portland TSP nonattainment area boundary was submitted by DEQ pursuant to Section 107(d)(5) to better define the area which actually exceeds the secondary National Ambient Air Quality Standard (NAAQS) for TSP.

**SUPPLEMENTARY INFORMATION:** On March 23, 1981 and March 24, 1981 DEQ submitted control strategies for the Eugene-Springfield and Portland secondary TSP nonattainment areas respectively. On October 16, 1980 DEQ submitted revisions to the control strategies for the Salem ozone nonattainment area. On August 17, 1981, DEQ submitted amendments to the operating rules for the Portland motor vehicle inspection program (Oregon Administrative Rules, Chapter 340, Division 24, Sections 300 through 350). These control strategies, control strategy revisions, and rule amendments were submitted as revisions to the Oregon SIP pursuant to the requirements of Part D of the Act. On March 24, 1981 DEQ also requested, pursuant to the provisions of Section 107(d)(5) of the Act, a revision to the boundary of the Portland TSP nonattainment area.

On December 8, 1981 EPA proposed in the *Federal Register* (46 FR 60017) approval of these control strategies, control strategy revisions, and rule amendments and revisions to the Portland TSP nonattainment area boundary. EPA received no comments on this proposed action. Therefore, EPA today is: (1) Approving the TSP control strategy for Portland; (2) approving the TSP control strategy for Eugene-Springfield; (3) approving the revision to the ozone control strategy for Salem; (4) approving the revisions to the operating rules for the Portland motor vehicle inspection program; and (5) revising the boundary of the Portland secondary TSP nonattainment area. Readers are directed to the December 8, 1981 *Federal Register* for additional information.

EPA finds that good cause exists for making the action in this Notice immediately effective for the following reasons: (1) The public has had adequate notice of the guidelines for preparation of State Implementation Plans and has had several opportunities to comment on those guidelines; and (2) the impact of this rulemaking is limited only to the State of Oregon.

Under Section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 11, 1982. This action may not be challenged later in proceedings to enforce its requirements. (See 307(b)(2)).

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.
