SUPPLEMENTARY INFORMATION: On April
18, 1984 (49 FR 15229) EPA proposed

approval of primary standard and secondary TSP attainment plans for the Medford, Oregon TSP nonattainment area. The control strategies relied on both industrial and nontraditional source control measures. Considerable emphasis was placed on reducing emissions from residential wood stoves. The proposed rulemaking (49 FR 15229) may be consulted for additional background and attainment plan information.

A 30-day public comment period was provided following publication of the proposed rulemaking. No comments were received.

EPA therefore approves the primary standard and secondary standard TSP attainment plans for the Medford, Oregon TSP nonattainment area, as submitted on April 25, 1983. The plans are represented by Section 4.10 of the Oregon State Implementation Plan. This section is entitled "Medford-Ashland Air Quality Maintenance Area State Implementation Plan for Particulate Matter."

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of the Executive Order 12291.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by 60 days from today. This action may not be challenged later in proceedings to enforce its requirements (See 307(b)(2)).

PART 52—[AMENDED]

Part 52 of Chapter I, Title 40, Code of Federal Regulations is amended as follows:

Subpart MM—Oregon

1. Section 52.1970 is amended by

adding, paragraph (c)(67) to read as follows:

§ 52.1970 Identification of plan.

(c) (67) On April 25, 1983, the State Department of Environmental Quality submitted Section 4.10, "Medford-Ashland Air Quality Maintenance Area

State Implementation Plan for Particulate Matter."

2. Section 52.1973 is amended by revising the attainment date table to read as follows:

§ 52.1973 Attainment dates for national standards.

Agency, 1860 Lincoln Street, Denver, Colorado 80295, (303) 844-3471.

SUPPLEMENTARY INFORMATION: On September 20, 1982, the State of Utah submitted the 1982 revision to its carbon monoxide/ozone SIP for the following nonattainment areas: (1) Carbon Monoxide—Salt Lake City, Ogden, Provo, and (2) Ozone—Salt Lake and Davis Counties.

On February 3, 1983 (48 FR 5128), EPA proposed to approve certain portions of that submittal and to disapprove others. The specific proposals were:

(1) Disapproval of the Salt Lake City carbon monoxide plan because the I/M program requirements had not been met and because several other transportation requirements had not been adequately addressed.

(2) Disapproval of the Salt Lake County and Davis County ozone plans for the reasons stated above.

(3) Approval of the Ogden and Provo carbon monoxide plans. However, EPA proposed to approve the plan on the assumption that the transportation requirements, including a monitoring plan, contingency plan, conformity determination procedures, and basic transportation needs would be adequately addressed during the comment period [subsequently this issue was approved by EPA on December 21, 1983 (48 FR 56379)].

On March 14, 1983, EPA received comments from the Governor of Utah which discussed all of the proposed actions, including the deficiencies in the Ogden and Provo CO plans. The Governor pointed out that the Utah SIP incorporates by reference a document entitled "Traffic Control Measures for the Wasatch Front Region" prepared by the Wasatch Front Region Council (WFRC) which discusses basic transportation needs, transportation monitoring plans, and contingency plans. The Governor also pointed out that the Utah DOT is required by regulation (as included in the Utah SIP) to submit highway project plans to the State Bureau of Air Quality to determine conformity with the SIP.

On April 22, 1983, the Utah Bureau of Air Quality submitted supplemental information which addressed each of the transportation requirements cited in the proposed rulemaking.

On July 21, 1983, the Utah legislature adopted legislation providing State authority to adopt and enforce I/M. The legislation requires that the two county governments implement I/M programs.
