Approval and Promulgation of State Implementation Plan: Oregon

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rulemaking action approves the Oregon State Implementation Plan (SIP) revision pertaining to the carbon monoxide (CO) attainment plan for the Grants Pass area. The CO plan relies upon the construction of a third bridge over the Rogue River to relieve traffic congestion in the downtown nonattainment area, as well as the Federal Motor Vehicle Emission Control Program to demonstrate attainment of the CO standard by December, 1990. This SIP revision was submitted to EPA by the Oregon Department of Environmental Quality on November 24, 1986, and was supplemented on January 8, 1987.

EFFECTIVE DATE: March 15, 1988.

SUPPLEMENTARY INFORMATION:

I. Background

On December 16, 1985, Grants Pass, Oregon, was designated a newly discovered nonattainment area for CO (50 FR 51251). As a newly discovered area, the EPA policies contained in the EPA Policy Statement on post-1982 attainment areas, November 2, 1983 (48 FR 50886) and in the "Guidance Document for Correction of Part D SIP's for Nonattainment Areas," January 27, 1984, apply. In essence, newly designated nonattainment areas must meet requirements for 1979 SIP's as described in the Preamble for SIP Approval of Part D SIP's (April 4, 1979, 44 FR 2072). In accordance with the policies stated therein, the Grants Pass plan projects attainment by December, 1990, which is within the five-year time limit from the date of the nonattainment designation.

The plan calls for the construction of a third bridge over the Rogue River in conjunction with the Federal Motor Vehicle Emission Control Program to bring the area into attainment. For a detailed description of the plan, refer to the proposed rulemaking that was published on July 15, 1987 (52 FR 26534).

II. Response to Comments

On July 15, 1987 (52 FR 26534), EPA provided a 30 day public comment period on this proposed approval. No comments were received.

III. Final Rulemaking Action

Today, EPA is approving the Grants Pass, Oregon, carbon monoxide (CO) plan and the established attainment date of December, 1990, as a revision to the existing SIP.

IV. Administrative Review

Under 5 U.S.C. section 605(b), I certify that this revision will not have a significant economic impact on a substantial number of small entities. (See 46 FR 8709.)

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by March 15, 1988. This action may not be challenged later in proceedings to enforce its requirements (See 307(b)(2)).

The Office of Management and Budget has exempted this rule from the requirement of section 3 of Executive Order 12291.

On May 12, 1987 (52 FR 17752), OSHA published technical amendments to their above cited rule. In reviewing the OSHA technical amendment notice, EPA found that some of the OSHA amendments are applicable to the EPA "Asbestos Abatement Projects; Worker Protection." Accordingly, EPA is issuing this notice to make technical amendments corresponding to OSHA's technical amendments and to correct minor typographical errors in the EPA "Asbestos Abatement Projects; Worker Protection" rule.

Accordingly, the preamble to FR Doc. 87-3645 published in 52 FR 5618-5650 February 25, 1987, is corrected as follows: Corrections to the preamble:
