

PENNSYLVANIA
 40 CFR PART 52, SUBPART NN, SECTION 52.2020(c)(3)
 PHILADELPHIA AIR MANAGEMENT SERVICES
 STATE IMPLEMENTATION PLAN (SIP) RULES
 IN EFFECT AS OF DECEMBER 1, 2008

TABLE OF CONTENTS

Regulation	Title
Title 3	Air Management Code
Chapter 3-100	General Provisions
Chapter 3-200	Prohibited Conduct (except §3-207(4))
Chapter 3-300	Administrative Provisions
Regulation I	General Provisions
Section I	Definitions
Section II	Source Registration and Emission Reporting (except portions of paragraph II.B)
Section III	Testing and Test Methods
Section IV	Availability of Technology
Section V	Improvement and Plan
Section VI	Pre-existing Regulations
Section VII	Circumvention
Section VIII	Severability
Section IX	Effective Date
Section XI.D	Compliance with Federal Regulations–Stack Height Regulations
Regulation II	Air Contaminant and Particulate Matter Emissions
Section I	No Title [General Provisions]
Section II	Open Fires
Section IV	Visible Emissions
Section V	Particulate Matter Emissions from the Burning of Fuels
Section VI	Selection of Fuel for Particulate Matter Emission Control
Section VII	Particulate Matter Emissions from Chemical, Metallurgical, Mechanical and Other Processes
Section VIII	Fugitive Dust
Table 1	No Title [Allowable Process Weight Emissions]

Regulation III	The Control of Emissions of Oxides and Sulfur Compounds
Section I	No Title [General Provisions]
Section II	Control of Emission of Sulfur Compounds
Section III	Control of Sulfur in Fuels
Regulation IV	Governing Air Pollution Control Measures During High Air Pollution Episodes
Section I	Definitions
Section II	Declaration of Conditions
Section III	Termination of Conditions
Section IV	Alert and Notification System by the Health Commissioner and the Emergency Coordinator
Section V	Advance Preparation for High Air Pollution Episodes
Section VI	Actions and Restrictions
Section VII	Severability
Section VIII	Effective Date
Table I	Minimum Abatement Strategies for Emission Reduction Plans - Stage I Condition
Table II	Minimum Abatement Strategies for Emission Reduction Plans - Stage II Condition
Table III	Minimum Abatement Strategies for Emission Reduction Plans- Emergency Condition
Table IV	Emergency Business and Establishment List
Regulation V	Control of Emissions of Organic Substances From Stationary Sources
Section I	Definitions (except definitions related to paragraphs V.C.& V.D.)
Section II	Storage Tanks
Section III	Oil-Effluent Water Separator
Section IV	Pumps and Compressors
Section V	Organic Material Loading (except paragraphs V.C and V.D)
Section VI	Solvents
Section VII	Processing of Photochemically Reactive Materials
Section VIII	Architectural Coatings
Section IX	Disposal of Solvents
Section X	Compliance with Pennsylvania Standards for Volatile Organic Compounds (VOC)
Section XI	Petroleum Solvent Dry Cleaning
Section XII	Pharmaceutical Tablet Coating
Section XIII	Process Equipment Leaks
Section XXII	Circumvention
Section XXIII	Severability
Section XXIV	Effective Date

Regulation VII Control of Emissions of Nitrogen Oxides From Stationary Sources

Section I	Definitions
Section II	Fuel Burning Equipment
Section III	Nitric Acid Plants
Section IV	Emissions Monitoring
Section V	Circumvention
Section VI	Severability
Section VII	Effective Date

Regulation VIII Control of Emissions of Carbon Monoxide From Stationary Sources

Section I	Definitions
Section II	General
Section III	Emissions Monitoring
Section IV	Circumvention
Section V	Severability
Section VI	Effective Date

Regulation XI Control of Emissions From Incinerators

Section I	Definitions
Section II	General Provisions
Section III	Emissions Limitations (except paragraph III.E.- odors)
Section IV	Design
Section V	Operation
Section VI	Permits and Licenses
Section VII	Circumvention
Section VIII	Severability
Section IX	Effective Date

Regulation XIII Construction, Modification, Reactivation and Operation of Sources

Section I	Introduction
Section II	Program Adoption
