The conditions of CAAPP permits are enforceable by the public, as well as by the USEPA and Illinois EPA. In addition to implementing Title V of the Act, CAAPP permits may contain "Title I Conditions," i.e., conditions established under the permit programs for new and modified emission units, pursuant to Title I of the Act. This permit contains T1 conditions in section 7.1.6 that were established in previously issued permits. The draft permit also contains new T1 conditions established by this application in section 7.1.6. The draft permit contains no revisions to previously established T1 conditions.
