

Public Notice
Proposed Revision to the Prevention of Significant Deterioration Permit to
PQ Corporation in Gurnee

PQ Corporation has applied to the Illinois Environmental Protection Agency (Illinois EPA) to revise the Prevention of Significant Deterioration permit previously issued by the Illinois EPA for the company's Sodium Silicate Manufacturing process. The company has requested to modify limits in the permit based on stack test data. Modifying the limits will not modify the established Best Available Control Technology for this process. The facility is located at 1945 Delany Road in Gurnee. The Illinois EPA is accepting comments prior to making a final decision on the revision.

Persons wanting more information may obtain copies of the draft permit, and project summary at www.epa.gov/region5/air/permits/ilonline.htm (please look under All Permit Records, PSD, Revision). These documents and the application can also be obtained from the Illinois EPA's offices at 9511 West Harrison in DesPlaines, 847/294-4000 and 1340 North Ninth St., Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

Comments are requested on the proposed issuance of the permit. Comments must be postmarked by midnight June 17, 2001. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
