

**ACID RAIN PROGRAM**  
**NOTICE OF DRAFT PHASE II PERMIT AND PUBLIC COMMENT PERIOD**

The Illinois Environmental Protection Agency (Illinois EPA) is proposing to issue a five year Acid Rain Phase II Permit for the City Water, Light and Power, Interstate Turbine facility located at 3620 Ridgely Road in Springfield consistent with Section 39.5(17)(b), Title IV; Acid Rain Provisions, of the Illinois Environmental Protection Act [415 ILCS 5/1 et Seq.] and Titles IV and V of the Clean Air Act.

The acid rain permit contains provisions related to sulfur dioxide (SO<sub>2</sub>) emissions and requires the owners and operators to hold SO<sub>2</sub> allowances to account for SO<sub>2</sub> emissions beginning in the year 2000. An allowance is a limited authorization to emit up to one ton of SO<sub>2</sub> during or after a specified calendar year. Although this plant was not eligible for an allowance allocated by USEPA, the owners or operators may obtain SO<sub>2</sub> allowances to cover emissions from other sources under a marketable allowance program.

This permit would not affect City Water, Light and Power's responsibility to meet all applicable local, state, and federal requirements. The designated representative and alternate designated representative for the source, which includes combustion unit 1, are Mr. William A. Murray, 217/757-8610 and Mr. S. Davis Farris, 217/757-8610, respectively.

Persons wanting more information may review the Illinois EPA's draft permit and the SO<sub>2</sub> and NO<sub>x</sub> compliance plan at the Illinois EPA's offices at 4500 South Sixth Street in Springfield, 217/786-6329 and 1340 North Ninth Street, Springfield, 217/782-7027. Copies of the documents will be made available upon request to the Illinois EPA.

Comments are requested on the proposed issuance of this permit. Comments must be postmarked by midnight March 16, 2001. If sufficient interest is expressed in this permit, a hearing may be held.
