

Public Notice
Proposed Revision of a Construction Permit
for Kinder Morgan Liquids Terminals, LLC – Argo Terminal

Kinder Morgan Liquids Terminals, LLC – Argo Terminal has applied for a revision to their construction permit from the Illinois Environmental Protection Agency (Illinois EPA) to add several tanks and control devices to their facility located at 8500 West 68th Street in Argo. The new equipment and controls will cause a decrease in volatile organic material emissions at the facility. This decrease along with other contemporaneous increases at the facility will limit volatile organic material emissions to below the major source threshold thus the project will not be subject to the 35 IAC 203: Major Stationary Source Construction and Modification.

Persons wanting more information may obtain copies of the draft permit, and project summary at www.epa.gov/region5/air/permits/ilonline.htm (please look under All Permit Records, State Construction Permit, Revision). These documents and the application can also be obtained from the Illinois EPA's offices at 9511 West Harrison in Des Plaines, 847/294-4000 and 1340 North Ninth St., Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

The Illinois EPA is accepting comments prior to making a final decision on this project. Comments must be postmarked by midnight June 4, 2002. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
