The CAAPP is Illinois' operating permit program for major sources of emissions, as required by Title V of the Clean Air Act (Act). The conditions of CAAPP permits are enforceable by the public, as well as by the USEPA and Illinois EPA. In addition to implementing Title V of the Act, CAAPP permits may contain "Title I Conditions," i.e., conditions established under the permit programs for new and modified emission units, pursuant to Title I of the Act. The permit contains T1 conditions in section 3.3 and 4.1.2 that were established in previously issued permits. The permit contains T1 conditions in section 3.4 that are being revised by this application. The permit contains no T1 conditions that are being newly established by this application.
