**Proposed Issuance of Air Pollution Control Permit to**  
**Rockford Memorial Hospital, Rockford**

***Rockford Memorial Hospital has requested a modification to their federally enforceable state operating permit for the hospital at 2400 Rockton Avenue in Rockford. The company voluntarily requested federally enforceable limitations that will require it to operate as a non-major source.***

***The Illinois Environmental Protection Agency ("Illinois EPA") has reviewed the permit application and has concluded that the application complies with applicable state and federal air pollution control laws and rules, including the Illinois Environmental Protection Act, the Federal Clean Air Act, and Illinois' Rules for Air Pollution, 35 Ill. Adm. Code: Subtitle B.***

***The proposed permit limits the emission rates of the hospital and requires Rockford Memorial Hospital to comply with applicable state and federal regulations. The permit includes monitoring, and record keeping and reporting requirements to demonstrate that control measures are being carried out. The proposed permit would enable these requirements to be enforced by the USEPA, as well as the Illinois EPA. These requirements will assure that the hospital will be operated as a non-major source.***

***Persons wanting more information may review the Illinois EPA 's project summary and draft permit and the permit application at the Illinois EPA 's offices at 4302 North Main, Rockford, IL, and 1340 North Ninth St., Springfield. Copies of the documents will be made available upon request.***
