

Illinois Environmental Protection Agency

Notice of Public Comment Period
for the
Proposed Revision of the Construction Permit for
Electro-Motive Diesel in McCook

Electro-Motive Diesel has applied to the Illinois EPA Bureau of Air to revise the construction permit #09120034 for the engine test cells at its facility located at 9301 West 55th Street in McCook. Electro-Motive Diesel is requesting to revise the construction permit to increase utilization of the new test cells 7 and 8 at the facility. Because of contemporaneous decreases in emissions at the plant including decreased emissions from other test cells, the project will not be a major new source or modification for purposes of the federal rules for Prevention of Significant Deterioration (PSD), 40 CFR 52.21 or the state rules for Major Stationary Sources Construction and Modification (MSSCAM), 35 IAC Part 203.

Based on its review of the application, the Illinois EPA has made a preliminary determination that this project will comply with the applicable environmental regulations and has prepared a draft permit for public review.

The Illinois EPA is accepting comments prior to making a final decision on the application for this project. **Comments must be postmarked by midnight January 27, 2012.** If sufficient interest is expressed in this matter, a hearing or other public meeting may be held. Comments, questions and requests for information, should be directed to Brad Frost, Bureau of Air, Illinois EPA, P. O. Box 19506, Springfield, IL 62794-9506, phone 217/782-2113, TDD 217/782-9143.

Persons wanting more information may view the draft permit and project summary at <http://www.epa.gov/reg5oair/permits/ilonline.html> The repositories for these documents and the application are located at the Illinois EPA's offices at 9511 West Harrison in Des Plaines, 847/294-4000 and 1340 N. Ninth St., Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.
