Re: K&K Iron Works, Inc.
8400 Joliet Rd
McCook, Il 60525

To Whom It May Concern,

As chairmen of the Lyons Environmental quality control commission, I wish to voice the commissions concern regarding the residents health and well being . We feel adding any air pollution from the McCook and Hodgkins area would be detrimental to their well being. Therefore being a community that will be down wind from yet another project that will add to a diminished air quality, We ask the IEPA not to grant K&K Iron Works, Inc. an Air permit.

We Can not believe that K&K is in operation without a valid operating permit and has never submitted an annual report. Now they are partitioning for an outdoor concrete spray booth. This is totally unacceptable for the health of our residents.

We ask that no outside spraying be done and that the facility not operate till all environmental controls are put into place.

We Await you response,

Gregory R. Boksa
