

Public Notice  
Proposed Issuance of a State Construction Permit to  
Silgan Containers Manufacturing Corporation – Hoopston Plant

Silgan Containers Manufacturing Corporation has applied to the Illinois Environmental Protection Agency (Illinois EPA) for a permit to construct replacement end liners for its manufacturing process at its facility located at 324 West Main Street in Hoopston. An increase in air emissions from the new end liners would be offset by the removal of the old end liners and other contemporaneous decreases in air emissions so that the construction of the replacement end liners would not be a major new source of air emissions pursuant to the Prevention of Significant Deterioration (PSD) rules, 40 Code of Federal Regulations (CFR) 52.21. The Illinois EPA is accepting comments prior to making a final decision on this project.

Persons wanting more information may obtain copies of the draft permit, and project summary at [www.epa.gov/region5/air/permits/ilonline.htm](http://www.epa.gov/region5/air/permits/ilonline.htm) (please look under All Permit Records, State Construction Permits, New). These documents and the application can also be obtained from the Illinois EPA's offices at 2125 South First Street in Champaign, 217/278-5800 (please call ahead to assure that someone will be available to assist you) and 1340 North Ninth St., Springfield, 217/782-7027. Copies of the documents will be made available upon request.

Comments are requested on the proposed issuance of the permit. Comments must be postmarked by midnight November 25, 2000. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
