

I. INTRODUCTION

This source has applied for a Clean Air Act Permit Program (CAAPP) operating permit for its existing operation. The CAAPP is the program established in Illinois for the operating permits for significant stationary sources required by the federal Clean Air Act, as amended in 1990. The conditions in a CAAPP permit are enforceable by both the Illinois Environmental Protection Agency (Illinois EPA) and the USEPA.

Southern Illinois University is located at Colyer Hall. The source utilizes three coal boilers and one natural gas boiler to generate steam, an incinerator, and ancillary equipment. In addition, the coal fired boilers control PM with Electrostatic Precipitators (ESP), and the incinerator uses a wet scrubber.

II. EMISSION UNITS

Significant emission units at this source are as follows:

4.0 SIGNIFICANT EMISSION UNITS AT THIS SOURCE

Emission Unit	Description	Date Constructed	Emission Control Equipment
B5	#CFB-0014 (1997) Nominal 140 mmBtu/hr	1997	Baghouse, Limestone Injection to CFB
BLR 4	#N25-7-78 (1992) 145 mmBtu/hr Natural Gas Fired Boiler (1985)	1992	Low NOx Burner
BLR2	#2DR-MP (1965) Nominal 106 mmBtu/hr	1965	ESP, Baghouse
BLR3	#2DR-MP (1965) Nominal 106 mmBtu/hr	1965	ESP, Baghouse
	Coal Handling Equipment: See 7.4.1		
Crusher	Coal Crushing Operation	1965	Enclosures and Covers, and Dust Collection Devices
	Fly Ash Equipment: See 7.6.1		
	Limestone Handling Equipment: See 7.7.1		
ENG1	2, 340 Hp Distillate Fuel Fired Engine	2002	None
S1	5,000 Gallon Gasoline Storage Tank	1993	Submerged Loading Pipe
S2	2,000 Gallon Gasoline Storage Tank		Submerged Loading Pipe
S3	500 Gallon Gasoline Storage Tank		Submerged Loading Pipe
S4	1,000 Gallon Gasoline Storage Tank		Submerged Loading Pipe
S5	500 Gallon Gasoline Storage Tank		Submerged Loading Pipe
S6	500 Gallon Gasoline Storage Tank		Submerged Loading Pipe
S7	500 Gallon Gasoline Storage Tank		Submerged Loading Pipe
Unit 4	Incinerator #1	1969	Wet Scrubber

III. EMISSIONS

This source is required to have a CAAPP permit since it is a major source of emissions.

For purposes of fees, the source is allowed the following emissions:

Pollutant	Tons/Year
Volatile Organic Material (VOM)	6.63
Sulfur Dioxide (SO <sub>2</sub> )	1798.8
Particulate Matter (PM)	33.28
Nitrogen Oxides (NO <sub>x</sub> )	355.58
HAP, not included in VOM or PM	-
Total	2184.29

IV. APPLICABLE EMISSION STANDARDS

All emission sources in Illinois must comply with the Illinois Pollution Control Board's emission standards. The Board's emission standards represent the basic requirements for sources in Illinois.

All emission sources in Illinois must comply with the federal New Source Performance Standards (NSPS). The Illinois EPA is administering NSPS in Illinois on behalf of the United States EPA under a delegation agreement.

All emission sources in Illinois must comply with the federal National Emission Standards for Hazardous Air Pollutants (NESHAP). The Illinois EPA is administering NESHAP in Illinois on behalf of the United States EPA under a delegation agreement.

V. PROPOSED PERMIT

CAAPP

A CAAPP permit contains all conditions that apply to a source and a listing of the applicable state and federal air pollution control regulations that are the origin of the conditions. The permit also contains emission limits and appropriate compliance procedures. The appropriate compliance procedures may include inspections, work practices, monitoring, record keeping, and reporting to show compliance with these requirements. The Permittee must carry out these procedures on an on-going basis.

Title I

A combined Title I/CAAPP permit contains terms and conditions established by the Illinois EPA pursuant to authority found in Title I provisions, e.g., 40 CFR 52.21 - federal Prevention of Significant Deterioration (PSD) and 35 IAC Part 203 - Major Stationary Sources Construction and Modification. Notwithstanding the expiration date on the first page of the permit, the Title I conditions remain in effect pursuant to Title I provisions until the Illinois EPA deletes or revises them in accordance with Title I procedures.

VI. REQUEST FOR COMMENTS

It is the Illinois EPA's preliminary determination that this source's permit application meets the standards for issuance of a CAAPP permit. The Illinois EPA is therefore proposing to issue a CAAPP permit, subject to the conditions proposed in the draft permit.

Comments are requested on this proposed action by the Illinois EPA and the proposed conditions on the draft permit. If substantial public interest is shown in this matter, the Illinois EPA will consider holding a public hearing in accordance with 35 Ill. Adm. Code Part 166.
