

Public Notice
Proposed Issuance of a State Construction Permit
to R.R. Donnelley & Sons Company, Mattoon

R.R. Donnelley & Sons Company has applied to the Illinois Environmental Protection Agency (Illinois EPA) for a permit to construct a new lithographic printing press, a new rotogravure printing press, and a new boiler at its facility located on Route 45 North in Mattoon . The company will also be expanding its existing thermal oxidizer system, solvent recovery system and will further control two existing printing presses. The increase in air emissions from the new equipment will be offset by decreases in air emissions from the additional control of existing equipment so that this modification will not be greater than major source thresholds. This permit is not subject to the federal Prevention of Significant Deterioration (PSD) rules (40 CFR 52.21). The Illinois EPA is accepting comments prior to making a final decision on this project.

Persons wanting more information may obtain copies of the draft permit, and project summary at www.epa.gov/region5/air/permits/ilonline.htm (please look under All Permit Records, State Construction Permit, New). These documents and the application can also be obtained from the Illinois EPA's offices at 2125 South First Street in Champaign, 217/278-5800 and 1340 North Ninth St., Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

Comments are requested on the proposed issuance of the permit. Comments must be postmarked by midnight October 1, 2001. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
