Proposed Issuance of a State Construction Permit
and Notice of Public Hearing for
Indeck-Rockford II, L.L.C.

Indeck-Rockford II, L.L.C. has requested a construction permit from the Illinois Environmental Protection Agency (Illinois EPA) to add equipment to one existing simple cycle turbine to convert it to a combine cycle configuration at its facility located on Harrison Road at the Rock River Industrial Park in Rockford. The construction permit would allow the addition of a Heat Recovery Steam Generator (HRSG) with duct burner, Selective Catalytic Reduction (SCR) system, a cooling tower, and other associated ancillary equipment. The Illinois EPA will hold a public hearing on June 19, 2001 at 7:00 p.m. at the Beyer School, 333 – 15th Avenue in Rockford. The hearing will be held by the Illinois EPA to receive comments and data and to answer questions from the public prior to making a final decision concerning the permit. Lengthy comments and questions should be submitted to the Illinois EPA in writing. Written comments must be postmarked by midnight, July 19, 2001, unless otherwise specified by the hearing officer at the time of the hearing. Comments need not be notarized and should be sent to the Illinois EPA Hearing Officer, 1021 North Grand Avenue East, P.O. Box 19276, Springfield, Illinois 62794-9276.
