CONSTRUCTION PERMIT - NSPS SOURCE

PERMITTEE

J & L Dock Facilities, Inc.
Attn: Joe Heinz
537 West Knoxville
Brimfield, Illinois 61517

Application No.: 01040080

I.D. No.: 143065AXS

Applicant's Designation: DUST CTRL

Date Received: April 30, 2001

Subject: Coal Processing Plant

Date Issued: July 9, 2001

Location: 6 Sanger Street, Peoria

Permit is hereby granted to the above-designated Permittee to CONSTRUCT emission source(s) and/or air pollution control equipment consisting of modification to the existing coal processing plant (consisting of a hopper, 3 conveyors, and a coal screener) with dust suppression system as described in the above referenced application. This Permit is subject to standard conditions attached hereto and the following special conditions:

- 1a. This coal processing plant is subject to a New Source Performance Standard (NSPS) for the coal processing plant, 40 CFR 60, Subparts A and Y. The Illinois EPA is administering NSPS in Illinois on behalf of the United States EPA under a delegation agreement.
- b. At all times, the Permittee shall also, to the extent practicable, maintain and operate the coal processing plant, including associated air pollution control equipment, in a manner consistent with good air pollution control practice for minimizing emissions.
2. The opacity from any coal processing and conveying equipment, coal storage system, or coal transfer and loading system processing coal shall not exceed 20%, pursuant to the New Source Performance Standard.
3. No person shall cause or allow any visible emissions of fugitive particulate matter from any process, including any material handling or storage activity beyond the property line of the emission source, pursuant to 35 Ill. Adm. Code 212.301.
4. The coal processing plant may be operated for a period of 180 days after completion of construction, under this construction permit.
 - a. Within 60 days after achieving the maximum production rate at which the modified coal processing plant will be operated, but not later than 180 days after completion of its construction, the opacity concentration(s) in its effluent stream shall be measured by an approved testing service.
 - b. Performance tests shall be conducted and data collected in accordance with the test methods and procedures specified in 40 CFR 60.253, 40 CFR 60.254 and 35 Ill. Adm. Code 183.

- c. At least thirty (30) days prior to the actual date of testing, a written test plan shall be submitted to the Illinois EPA for review and approval. This plan shall describe the specific procedures for testing including as a minimum:
- i. The person(s) who will be performing sampling and analysis and their experience with similar tests.
 - ii. The specific conditions under which testing will be performed, including a discussion of why these conditions will be representative of the maximum emissions, the levels of operating parameters at or within which compliance is intended to be shown, if applicable, and the means by which the operating parameters for the process and any control equipment will be determined.
 - iii. The specific determination of emissions and operations which are intended to be made, including sampling and monitoring locations.
 - iv. The test method(s) which will be used, with the specific analysis method.
 - v. Any minor changes in standard methodology proposed to accommodate the specific circumstances of testing, with justification.
 - vi. Any proposed use of an alternative test method, with detailed justification.
 - vii. The format and content of the Source Test Report prior to carrying out these tests, the Illinois EPA shall be notified a minimum of thirty days prior to the scheduled date of these tests with the exact date, time, and place of these tests, to enable the Illinois EPA to witness these tests.

If the scheduled date for the test is changed for unforeseen reasons, the Permittee shall inform the Illinois EPA within five (5) working days of the scheduled test date and must specify the date of the rescheduled test.

A copy of the Final Report(s) for these tests and compliance status shall be submitted to the Illinois EPA within fourteen (14) days after the test results are compiled and finalized, prior to or accompanying the operating permit application. Satisfactory completion of these tests and compliance with the limitations of this permit shall be prerequisite to the issuance of an operating permit.

- viii. A statement that the testing will be performed by a qualified independent testing service.

5. The Permittee shall notify the Illinois EPA as required by 40 CFR 60.7 including:
 - a. Date of construction or reconstruction;
 - b. Anticipated date of initial startup; and
 - c. Actual date of initial startup.
6. The Permittee shall fulfill applicable notification and recordkeeping requirements of the NSPS, 40 CFR 60.7.
7. The Permittee shall maintain the following records:
 - a. Amount of coal processed (ton/month and ton/year); and
 - b. Type and amount of suppressant used (gallon/month and gallon/year).
8. Two (2) copies of required reports and notifications concerning equipment operation or repairs, performance testing or a continuous monitoring system shall be sent to:

Illinois Environmental Protection Agency
Division of Air Pollution Control
Compliance Section (#40)
P.O. Box 19276
Springfield, Illinois 62794-9276

and one (1) copy shall be sent to the Illinois EPA's regional office at the following address unless otherwise indicated:

Illinois Environmental Protection Agency
Division of Air Pollution Control
5415 North University
Peoria, Illinois 61614

If you have any questions on this, please call Eric Jones at 217/782-2113.
