

Public Notice
Proposed Issuance of a Construction Permit to
Color Communications, Inc. in Chicago

Color Communications, Inc. has applied for a construction permit from the Illinois Environmental Protection Agency (Illinois EPA) to install flexographic printers on mounting machines 5A, 6A, 7A, and 12A, UV/Silicon Release coating applicators on mounting machines 6A and 8A, and to modify an existing coating line. The facility located at 4000 West Fillmore Street in Chicago produces color boards using coating and printing lines. The modifications would increase volatile organic material (VOM) emissions at the facility. The increase in emissions will not be significant, so the project will not be a major modification as defined by the federal Prevention of Significant Deterioration (PSD) rules, 40 CFR 52.21 or the state rules 35 IAC 203: Major Stationary Source Construction and Modification. The Illinois EPA is accepting comments prior to making a final decision on this project.

Persons wanting more information may obtain copies of the draft permit, and project summary at www.epa.gov/region5/air/permits/ilonline.htm (please look under All Permit Records, State Construction Permits, New). These documents and the application can also be obtained from the Illinois EPA's offices at 9511 West Harrison in Des Plaines, 847/294-4000 and 1340 North Ninth St., Springfield, 217/782-7027 (for either location please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

The Illinois EPA is accepting comments prior to making a final decision on this project. Comments must be postmarked by midnight August 17, 2003. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
