

Public Notice  
Proposed Issuance of a Construction Permit to  
Applied Composites Corporation in St. Charles

Applied Composites Corporation has applied for a construction permit from the Illinois Environmental Protection Agency (Illinois EPA) to replace its old sheet molding compound (SMC) machine with a new SMC machine at its facility located at 333 North Sixth Street in St. Charles. The new SMC machine will be a source of emissions, however the emissions reductions from the shutdown of the old SMC machine will result in a net increase in emissions which is not significant as defined by the federal Prevention of Significant Deterioration (PSD) rules, 40 CFR 52.21 or the state rules 35 IAC 203: Major Stationary Source Construction and Modification. The Illinois EPA is accepting comments prior to making a final decision on this project.

Persons wanting more information may obtain copies of the draft permit, and project summary at [www.epa.gov/region5/air/permits/ilonline.htm](http://www.epa.gov/region5/air/permits/ilonline.htm) (please look under All Permit Records, State Construction Permit, New). These documents and the application can also be obtained from the Illinois EPA's offices at 9511 West Harrison in Des Plaines, 847/294-4000 and 1340 North Ninth St., Springfield, 217/782-7027 (for either location please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

The Illinois EPA is accepting comments prior to making a final decision on this project. Comments must be postmarked by midnight July 31, 2004. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
