

Public Notice
Proposed Issuance of a State Construction Permit
to Explorer Pipeline Company in Hartford

Explorer Pipeline Company has applied for a construction permit from the Illinois Environmental Protection Agency (Illinois EPA) to add five new storage tanks to its existing facility located at 1355 Robins Road in Hartford. The draft permit contains conditions that would prevent the new construction from being a major modification as defined by the state's rules for Major Stationary Sources Construction and Modification (MSSCAM), 35 IAC 203 or the federal Prevention of Significant Deterioration (PSD) rules, 40 CFR 52.21. The Illinois EPA is accepting comments prior to making a final decision on this project.

Persons wanting more information may obtain copies of the draft permit, and project summary at www.epa.gov/region5/air/permits/ilonline.htm (please look under All Permit Records, State Construction Permits, New). These documents and the application can also be obtained from the Illinois EPA's offices at 2009 Mall Street in Collinsville, 618/346-5120 and 1340 North Ninth St., Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

The Illinois EPA is accepting comments prior to making a final decision on this project. Comments must be postmarked by midnight June 29, 2002. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
