

**Illinois Environmental Protection Agency**

Notice of Public Comment Period  
Proposed Issuance of a Revised Construction Permit/PSD Approval  
Dynegy Kendall Energy, LLC in Minooka

Dynegy Kendall Energy, LLC has applied to the Illinois EPA Bureau of Air for revisions to the original Construction Permit/PSD Approval for its electric generation facility located at 1401 County Line Road in Minooka. The facility is a natural gas fired “intermediate load” power plant and operates four combined cycle combustion turbines.

The permit is being revised to clarify when short term limits for specific pollutants would apply during operation of the facility. The requested changes to the permit do not involve the case-by-case determinations of Best Available Control Technology (BACT) for the generating units made in the permit pursuant to the PSD rules, 40 CFR 52.21. The requested changes also do not involve the permitted annual emissions of the generating units as originally established when this permit was initially issued.

Based on its review of the application, the Illinois EPA has made a preliminary determination that the requested revisions will comply with the applicable air pollution control regulations and has prepared a draft of a revised permit for public review.

The Illinois EPA is accepting comments prior to making a final decision on this application. **Comments must be postmarked by midnight December 21, 2014.** If sufficient interest is expressed in this matter, a hearing or other informational meeting may be held. Comments, questions and requests for information, should be directed to Brad Frost, Bureau of Air, Illinois EPA, P. O. Box 19506, Springfield, IL 62794-9506, phone 217/782-2113, TDD 217/782-9143.

The repositories for these documents and the application are located at the Illinois EPA's offices at 9511 West Harrison in Des Plaines, 847/294-4000 and 1340 N. Ninth St., Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). The draft permit and project summary may also be viewed at <http://www.epa.gov/reg5oair/permits/ilonline.html> Copies of the documents will be made available upon request to the contact listed above.
