Slag, LLC and Oil Technology, Inc.)
)

ORDER

A public hearing regarding the above captioned matter was held on December 2, 2008, in Granite City, Illinois. This matter has been set to receive written comments until closure of the record on February 13, 2009, extended from January 2, 2009. On February 4, 2009, Maxine I. Lipeles, Interdisciplinary Environmental Clinic, Washington University School of Law, on behalf of the American Bottom Conservancy, requested an additional extension of the comment period. The Interdisciplinary Environmental Clinic has requested this extension due to the complexity of the facility and the associated permits; the timing of receipt of information from its Freedom of Information Act ("FOIA") request to the Illinois Environmental Protection Agency ("Illinois EPA") regarding information relating to this permit matter; the timing of receipt of answers from Illinois EPA to questions relating to this permit matter; and the occurrences of holiday periods during the comment period.

The Hearing Officer, pursuant to authority set forth under 35 Ill. Adm. Code Section 166.191, hereby grants the request for extension and orders that the comment period in this matter be extended from February 13, 2009, to February 27, 2009. Accordingly, written comments must be postmarked by midnight February 27, 2009.

Date: February 5, 2009

Annet Godiksen, Hearing Officer
