

Public Notice
Proposed Issuance of a Construction Permit
to the City of Waterloo

The City of Waterloo has applied for a permit from the Illinois Environmental Protection Agency (Illinois EPA) to construct two dual fired turbines at the Waterloo City Light Plant, Third and Lemen Streets in Waterloo. The construction of the proposed facility requires a permit because of its associated air emissions. The project will not be a major modification as defined by the federal Prevention of Significant Deterioration (PSD) rules, 40 CFR 52.21. The Illinois EPA is accepting comments prior to making a final decision on this project.

Persons wanting more information may obtain copies of the draft permit, and project summary at www.epa.gov/region5/air/permits/ilonline.htm (please look under All Permit Records, State Construction Permit, New). These documents and the application can also be obtained from the Illinois EPA's offices at 2009 Mall Street in Collinsville, 618/346-5120 and 1340 North Ninth St., Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the documents will be made available upon request.

Comments are requested on the proposed issuance of the permit. Comments must be postmarked by midnight November 17, 2001. If sufficient interest is expressed in the permit, a hearing may be held. Requests for information, comments, and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
