

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION 5
77 WEST JACKSON BOULEVARD
CHICAGO, IL 60604-3590

MAY 30 2007

REPLY TO THE ATTENTION OF:

(A-18J)

Kathy Watson, Chief
Air Programs Branch
Office of Air Quality
Indiana Department of Environmental Management
100 North Senate Avenue
Indianapolis, Indiana 46204-2251

Dear Ms. Watson:

A handwritten signature in black ink, appearing to read "Kathy Watson", written over a horizontal line.

This letter is in response to your February 8, 2007, letter to the Regional Administrator (revised May 16, 2007) requesting delegation of authority to implement and enforce federal standards under Section 112(l) of the Clean Air Act (See 62 FR 36460 (July 8, 1997)). More specifically, you requested the delegation of five additional Part 63 Maximum Achievable Control Technology (MACT) standards including the delegation of Category I authorities under the general provisions for those standards.

The requested delegations are "straight" delegations and we find that the following State of Indiana rules have incorporated the corresponding federal MACT standards unchanged from the federal standards: 326 Indiana Administrative Code (IAC) 20-26, 326 IAC 20-29, 326 IAC 20-80, 326 IAC 20-81, and 326 IAC 20-95. Based on the above, the United States Environmental Protection Agency (U.S. EPA) hereby delegates to Indiana the implementation and enforcement authority for the 40 C.F.R. Part 63, Subparts: II, CCC, MMMM, PPPP, and DDDDD.

Further, U.S. EPA hereby delegates the applicable Category I authorities under the general provisions as set forth in 40 C.F.R. §63.91(g) to Indiana for the MACT standards being delegated pursuant to this letter. Please note in the event that Indiana modifies any MACT standard pursuant to the Category I authorities, 40 C.F.R. §63.91(g)(1)(ii) requires that Indiana report such modifications to Region 5 in a semi-annual report.

This letter amends the delegation of Section 112 standards for Part 70 and non-Part 70 sources already delegated to the State. The existing delegated standards are listed in Enclosures 1 and 2.

Pursuant to Section 112(l)(7) of the Clean Air Act, nothing in this delegation prohibits U.S. EPA from enforcing any applicable emission standard or requirement.

A notice announcing these delegations will be published in the **Federal Register** in the near future. If you have any questions or comments, please feel free to contact me or Ethan Chatfield, of my staff, at (312) 353-2212 and (312) 886-5112 respectively.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'S. Rothblatt', written over a horizontal line.

Stephen Rothblatt, Director
Air and Radiation Division

Enclosures

Enclosure 1: Straight Delegations

| Standard | 40 C.F.R. Part 63 MACT Standard Subpart | Date of Delegation |
|--|--|---------------------------|
| General Provisions | A | August 7, 1997 |
| Coke Oven Batteries (Phase I) | L | August 7, 1997 |
| Chromium Electroplating | N | August 7, 1997 |
| Commercial Sterilization | O | August 7, 1997 |
| Magnetic Tape Manufacturing | EE | August 7, 1997 |
| Wood Furniture Manufacturing | JJ | August 7, 1997 |
| Aerospace Manufacturing and Rework | GG | August 7, 1997 |
| Petroleum Refineries | CC | August 7, 1997 |
| Marine Tank Vessel Loading | Y | August 7, 1997 |
