Dear Mr. Chester:

This letter is in response to your December 21, 2006, request for approval of a revision to the State Implementation Plan. This revision consists of a new addition to Michigan's Air Pollution Control Rules, Part 18, Prevention of Significant Deterioration of Air Quality, R 336.2801 to R 336.2819 and R 336.2823 (1) to (14). Per your request, the following rules, included for reference only, are not considered part of this revision: R 336.2823(15) and R 336.3830.

We have performed a completeness review of your submittal against the completeness criteria set forth at 40 CFR Part 51, Appendix V. We have determined that this submittal satisfies the completeness criteria and have initiated processing of your request.

A finding of completeness merely indicates that the submittal meets the criteria that any plan submittal must satisfy for U.S. EPA to take rulemaking action on it. A completeness finding is not a finding on the merits of the plan submittal or whether it meets U.S. EPA's State Implementation Plan approval requirements.

If you have any questions regarding the review process, please contact Laura Cossa of my staff, at (312) 886-0661.

Sincerely yours
