## POLLUTION CONTROL BOARD

## NOTICE OF ADOPTED AMENDMENTS

- 1) Heading of the Part: Organic Material Emission Standards and Limitations for the Chicago Area
- 2) Code Citation: 35 Ill. Adm. Code 218
- 3) Section Numbers:                      Adopted Action:  
218.112    Amend  
218.929    New
- 4) Statutory Authority: 415 ILCS 5/10 & 27
- 5) Effective Date of Amendments: April 8, 2003
- 6) Does this rulemaking contain an automatic repeal date?      No
- 7) Do these amendments contain incorporations by reference? Yes; Section 218.112 lists materials that are incorporated by reference for this Part.  
  
All incorporations are pursuant to Section 6.02(a) of the Illinois Administrative Procedure Act.
- 8) The adopted amendments, including any material incorporated by reference, are on file in the Board's Chicago office and are available for public inspection.
- 9) Notice(s) of Proposal Published in Illinois Register:  
  
26 Ill. Reg. 13772, September 20, 2002
- 10) Has JCAR issued a Statement of Objections to these amendments? No
- 11) Differences between proposal and final version:  
  
The Board made only minor, nonsubstantive changes to the text it proposed at first notice.
- 12) Have all the changes agreed upon by the agency and JCAR been made as indicated in the agreements letter issued by JCAR? Yes

## POLLUTION CONTROL BOARD

## NOTICE OF ADOPTED AMENDMENTS

- 13) Will these amendments replace emergency amendments currently in effect? No
- 14) Are there any amendments pending on this Part? No
- 15) Summary and Purpose of Amendments:

This rulemaking is explained in more detail in the Board's opinion and order of January 20, 2003 in docket R02-20, available from the address below. This rulemaking was initiated by a filing of the Horween Leather Company to change the volatile organic material control requirements as applied to a small amount of new specialty leathers that it plans to produce at its facility located at 2015 north Elston Avenue, Chicago, Illinois. The amendments will allow Horween Leather Company to continue to produce its existing specialty leather pursuant to existing regulations, and develop new specialty leather products in compliance with the modified regulation.

New Section 218.929(a) defines the applicability of the rule that limits all exemptions and volume emission modification to Horween's leather manufacturing facility; Volatile Organic Material (VOM) emission limits for production of cementable show leather with a percent content of wax, grease, polymer, and oils between 12 and 25% by weight that cannot meet the definition of specialty leathers of 35 Ill. Adm. Code 211.6170; VOM emission limits for production of dress or performance shoe leather finished with water emulsified coating materials that cannot meet the definition of 35 Ill. Adm. Code 211.6170; and clarifies that there is no exemption from the annual 10-ton VOM cap applicable to stains pursuant to Section 218.926(b)(2)(i).

Additionally, the new Section contains specific numeric limitations on emissions from the production of the new leather products with a cap on total annual emissions, requires compliance with the company's approved standard operating and maintenance procedures, and includes reporting and record keeping requirements.

Section 218.112(a)(26) incorporates by reference ASTM D2099-00 Standard Test Method for Dynamic Water Resistance of Shoe Upper Leather by the Maeser Water Penetration Tester, a test method that is referenced in 218.929(b)(1).

- 16) Information and questions regarding these adopted amendments shall be directed to:
