

**DEPARTMENT OF ENVIRONMENTAL QUALITY**

**AIR QUALITY DIVISION**

**PART 2. AIR USE APPROVAL**

**R 336.1203 Information required.**

Rule 203. (1) An application for a permit to install shall include information required by the commission on the application form or by written notice. If considered by the commission to be pertinent to evaluation of the equipment for which a permit is sought, the information shall include, but is not necessarily limited to, the following:

(a) The expected composition of air contaminant stream, both before and after installation of an air-cleaning device, including emission rate, concentration, exhaust gas volume, and exhaust gas temperature.

(b) The expected physical and chemical characteristics of air contaminants.

(c) Details of air pollution control measures and air-cleaning devices, if any, including a description, design parameters, and anticipated performance.

(d) The location and elevation of the emission point and other factors relating to dispersion and diffusion of the contaminant in the outer air; the relation of the emission point to nearby structures and window openings; and other information necessary to appraise the possible effects of the air contaminant.

(e) The method of disposal of wastes resulting from operation of the process equipment or air-cleaning devices.

(f) A plan for reduction of emissions during air pollution alerts, warnings, and emergencies as required by subrule (1) of rule 1307.

(g) Information, in a form prescribed by the commission, that is necessary for the preparation of an environmental impact statement if, in the judgment of the commission, the equipment for which a permit is sought may have a significant effect on the environment.

(h) Data demonstrating the effect of the air contaminant emissions on human health and the environment.
