AIR QUALITY DIVISION

PART 3. EMISSION LIMITATIONS AND PROHIBITIONS—PARTICULATE MATTER

R 336.1362 Visible emissions from electric arc furnace operations at steel manufacturing facilities.

Rule 362. (1) A person shall not cause or permit to be discharged to the outer air, from an electric arc furnace stack, a visible emission with a density of more than 10% opacity.

(2) Compliance with the limit of this rule shall be determined using reference method 9 as described in R. 336.2004(1)(1).

History: 1985 MR 2, Eff. Feb 22, 1985; 1998 MR 3, Eff. Apr. 30, 1998.
