BILLING CODE 6560-36-M

**40 CFR Part 52**

[A-5-FRL-2043-7]

**Approval and Promulgation of Implementation Plans; Michigan**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of final rulemaking.

**SUMMARY:** The purpose of today's rulemaking is to announce final approval of a revision to the Michigan State Implementation Plan (SIP) for the Conoco Corporation in Berrien County. This revision approves Consent Order No. 17-1981 which establishes a compliance schedule for Conoco Company, Inc. to achieve the volatile organic compounds (VOC) limitations in R336.1609 by December 31, 1982.

**DATE:** This action will be effective April 19, 1982, unless notice is received on or before March 19, 1982 that someone wishes to submit critical or adverse comments.

**ADDRESSES:** Copies of this SIP revision are available for review at the following addresses:

Air Programs Branch, Region V, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604

Michigan Department of Natural Resources, Air Quality Division, State Secondary Government Complex, General Office Building, 7150 Harris Drive, Lansing, Michigan 48917

Written comments on these actions should be sent to: Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, Region V, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

**FOR FURTHER INFORMATION CONTACT:** Toni Lesser, Regulatory Analysis Section, Air Programs Branch, Region V,

U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886-6037.

**SUPPLEMENTARY INFORMATION:** On October 22, 1981, the State of Michigan submitted as a SIP revision Consent Order No. 17-1981 between Conoco, Inc., and the Michigan Air Pollution Control Commission. Consent Order No. 17-1981 concerns the VOC emissions from the company's truck gasoline loading rack bulk terminal loading rack. The Consent Order contains a detailed compliance schedule with the following increments:

(1) Dates by which the company shall submit plans, specifications and applications for an installation permit;

(2) Dates for control device manufacturers' orders;

(3) Dates for notification of beginning on-site installation of control devices;

(4) Date for notification of equipment operation;

(5) Date for submission of detailed report of equipment testing; and

(6) Date by which proof of attainment of the required VOC emission limitations shall be submitted.

On May 6, 1980 (45 FR 29790), EPA conditionally approved R336.1603. The condition required the State to submit detailed compliance schedules for sources with compliance dates on or before December 31, 1982.

EPA has reviewed the compliance plan contained in Consent Order No. 17-1981 and finds it to be consistent with Michigan's Rules R336.1603 and R336.1609, and with 40 CFR 51.15 and 51.1(g). The final compliance date for Conoco, Inc. is December 31, 1982. This compliance plan is consistent with the attainment date of the ozone National Ambient Air Quality Standard. Therefore, EPA is approving Consent Order No. 17-1981 for Conoco, Inc.

EPA has determined that this action is a noncontroversial rulemaking, since the Consent Order simply affirms a State action establishing interim compliance dates to supplement a final compliance date already adopted by the State. This action will be effective April 19, 1982. However, if EPA is notified by March 19, 1982 that someone wishes to submit adverse or critical comments, this action will be withdrawn and a new rulemaking will propose this action and establish a comment period.

Pursuant to the provisions of 5 U.S.C. Section 605(b), the Administrator certified on January 27, 1981 (46 FR 8709) that approvals of SIPs under Section 110 or 172 of the Clean Air Act would not have a significant economic impact on a

substantial number of small entities. Today's action approves a State action for a site-specific source under Section 110 of the Act. It imposes no requirements beyond those which the State has already imposed.

This regulation was exempted from review by the Office of Management and Budget under Section 3 of Executive Order 12291.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit by April 19, 1982. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceeding brought by EPA to enforce these requirements.

**Note.**—Incorporation by reference of the SIP for the State of Michigan was approved by the Director of Federal Register on July 1, 1981.

(Sec. 110, Clean Air Act (42 U.S.C. Section 7410))

Dated: February 9, 1982.

Anne M. Gorsuch,  
Administrator.

**PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS**

Part 52 of Chapter 1, Title 40 Code of Federal Regulations is amended as follows:

**Subpart X—Michigan**

1. Section 52.1170 is amended by adding paragraph (c)(50) as follows:

**§ 52.1170 Identification of plan.**

\* \* \* \* \*

(c) \* \* \*

(50) On October 22, 1981, the State of Michigan submitted as a SIP revision Consent Order No. 17-1981, between Conoco, Inc., and the Michigan Air Pollution Control Commission. The Consent Order establishes a compliance schedule for Conoco, Inc. to achieve the Volatile Organic Compounds (VOC) limitations in R336.1609 by December 31, 1982.

\* \* \* \* \*

2. Section 52.1175 is amended in the table to paragraph (e) by adding a compliance schedule for Conoco, Inc. alphabetically by county to read as follows:

**§ 52.1175 Compliance schedules.**

\* \* \* \* \*

(e) \* \* \*

MICHIGAN

Source	Location	Regulations involved	Date schedule adopted	Final compliance date
Conoco, Inc.	Berrien County	R336.1603, R336.1609	Sept. 26, 1981	Dec. 31, 1982

[A-7-FRL-2046-7]

**Approval and Promulgation of Implementation Plans; State of Missouri**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of receipt of submittal to satisfy conditions of plan approval.

**SUMMARY:** In order to satisfy the requirements of Part D of the Clean Air Act, as amended, the State of Missouri revised its State Implementation Plan (SIP) in 1980 to include additional control of volatile organic compounds (VOC) in the St. Louis ozone nonattainment area. On April 3, 1981, EPA conditionally approved one of Missouri's regulations. On December 21, 1981, the state submitted a draft revision to the regulations for the purpose of fulfilling this condition.

The purpose of this notice is to advise the public that the state has drafted a revision to the regulation to satisfy the condition. EPA is reviewing the material submitted and intends to issue a notice of final rulemaking if the state submits a final regulation which is substantially the same as the draft revisions. Until final action is published in the *Federal Register*, the conditional approval of the SIP is being continued.

**ADDRESSES:** Copies of the state submission are available for inspection during normal business hours at the following locations:

- Environmental Protection Agency, Air Branch, 324 East 11th Street, Kansas City, Missouri 64106
- Environmental Protection Agency, Public Information Reference Unit, 401 M Street, S.W., Room 2922, Washington, D.C. 20460
- Missouri Department of Natural Resources, 1101 Rear Southwest Boulevard, Jefferson City, Missouri 65102

**FOR FURTHER INFORMATION CONTACT:** Wayne G. Leidwanger at (816) 374-3791 (FTS) 758-3791.

**SUPPLEMENTARY INFORMATION:** On April 3, 1981, EPA conditionally approved certain elements of Missouri's SIP with regard to the requirements of Section 172(b) (2) and (3) of the Clean Air Act, as amended (46 FR 20172). Section 172(b)(2) requires implementation of all reasonably available control measures as expeditiously as practicable as part of a control strategy to attain a National Ambient Air Quality Standard (NAAQS). Section 172(b)(3) requires reasonable further progress toward attainment of the NAAQS (in this case, the ozone standard) including such reduction in emissions from existing sources in nonattainment areas as may be obtained through the adoption, at a minimum, of reasonably available control technology (RACT). Missouri Rule 10 CSR 10-5.340, Control of Emissions from Rotogravure and Flexographic Printing Facilities, applicable in the St. Louis area, contained minor deficiencies resulting in EPA's conditional approval on April 3, 1981. The condition required the state to amend the regulation to require compliance by 1982 for those sources relying on add-on control equipment and to specify an extended compliance schedule involving the use of low solvent inks. The state agreed to correct these deficiencies and the changes were to be submitted by January 1, 1982.

On December 1, 1981, the state published in the *Missouri Register* a proposed change to Rule 10 CSR 10-5.340 for the purpose of fulfilling this condition. This proposed revision was received by EPA on December 21, 1981. The Missouri Air Conservation Commission held a public hearing in record to this matter on January 20, 1982.

The public is advised that the state has submitted a draft revision to the regulation. EPA is reviewing the material to determine if it complies with the requirements of the Clean Air Act and the condition promulgated by EPA. EPA intends to issue a notice of final rulemaking if the state submits final revisions to the regulation which are substantially the same as the draft changes. EPA's conditional approval of the Missouri SIP is being continued until final action is published in the *Federal Register*.

Dated: January 29, 1982.

John J. Franke, Jr.,  
 Regional Administrator.

**Approval and Promulgation of Implementation Plans; Maine Revisions—Augusta TSP Attainment Plan and Visible Emissions**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**STATE:** Maine.

**SUMMARY:** The purpose of this Notice is to approve three State Implementation Plan (SIP) revisions which will 1) fulfill a condition of approval of Maine's Total Suspended Particulate (TSP) attainment plan, 2) change the date by which Augusta must attain the secondary TSP standard, and 3) change Maine's visible emissions regulation. The first SIP revision completes the requirements of Part D of the Clean Air Act for a fully approvable plan to attain and maintain the secondary TSP National Ambient Air Quality Standard.

**EFFECTIVE DATE:** These approval actions will be effective on April 19, 1982 unless notice is received on or before March 19, 1982 that someone wishes to submit adverse or critical comments.

**ADDRESSES:** Copies of the submittal and EPA's evaluation are available for public inspection during normal business hours at the Environmental Protection Agency, Room 1903, JFK Bldg., Boston, MA 02203; Public Information Reference Unit, Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460; the Office of the Federal Register, 1100 L St., NW., Room 8401, Washington, D.C.; and the Bureau of Air Quality Control, Ray Bldg., Hospital Street, Augusta, Maine 04330.

**FOR FURTHER INFORMATION CONTACT:** Linda Murphy, Air Branch, Room 1903, JFK Federal Bldg., Boston, MA 02203, (617) 223-4448.

**SUPPLEMENTARY INFORMATION:** A Final Rulemaking Notice conditionally approving Maine's Part D State Implementation Plan (SIP) was published on February 19, 1980 (45 FR 10766). Among the conditions for final approval was the submission of additional information concerning the control of total suspended particulate (TSP) emissions in Augusta. On October
