3745-14-08

Monitoring and reporting.

(A) General requirements.

- (1) The owners and operators, and to the extent applicable, the NOx authorized account representative of a NOx budget unit, shall comply with the monitoring and reporting requirements as provided in this rule and in subpart H of 40 C.F.R. part 75. For purposes of complying with such requirements, the definitions in paragraph (B) of rule 3745-14-01 and in 40 C.F.R. 72.2 shall apply, and the terms "affected unit," "designated representative," and "continuous emission monitoring system" (or "CEMS") in 40 C.F.R. part 75 shall be replaced by the terms "NOx budget unit," "NOx authorized account representative," and "continuous emission monitoring system" (or "CEMS"), respectively, as defined in paragraph (B) of rule 3745-14-01 of this chapter.
- (2) The owner or operator of each NOx budget unit and each unit for which an application for a NOx budget opt-in permit is submitted and not denied or withdrawn, as provided in rule 3745-14-09 of this chapter, shall meet the following requirements:

 - (a) install all monitoring systems required under this rule for monitoring NOx mass emissions: (This includes all systems required to monitor NOx emission rate, NOx concentration, heat input rate, and stack flow rate, in accordance with 40 C.F.R. 75.71 and 75.72.)
 - (b) install all monitoring systems for monitoring heat input rate;
 - (c) successfully complete all certification tests required under paragraph (B) of this rule and meet all other requirements of this rule and 40 C.F.R. part 75 applicable to the monitoring systems under paragraphs (A)(2)(a) and (A)(2)(b) of this rule; and
 - (d) record, report and quality assure the data from the monitoring systems required under paragraphs (A)(2)(a) and (A)(2)(b) of this rule.
- (3) The owner or operator shall meet the certification and other requirements of paragraphs (A)(2)(a) through (A)(2)(c) of this rule on or before the following dates. The owner or operator shall record, report and quality-assure the data from the monitoring systems under paragraphs (A)(2)(a) and (A)(2)(b) of this rule on and after the following dates:

 - (a) for the owner or operator of a NOx budget unit for which the owner or operator intends to apply for early reduction credit under paragraph (D)

of rule 3745-14-05 of this chapter, by May 1, 2000;

(b) for the owner or operator of a NOx budget unit under paragraph (C)(1) of rule 3745-14-01 of this chapter that commences operation before January 1, 2003, and that is not subject to or does not meet the deadline under paragraph (A)(3)(a) of this rule, by May 1, 2003;

(c) for the owner or operator of a NOx budget unit under paragraph (C)(1)(a) of rule 3745-14-01 of this chapter that commences operation on or after January 1, 2003 and that reports on an annual basis under paragraph (E)(4) of this rule, by the later of the following dates:

(i) May 1, 2003; or

(ii) ninety days after the date on which the unit commences commercial operation.

(d) for the owner or operator of a NOx budget unit under paragraph (C)(1)(a) of rule 3745-14-01 of this chapter that commences operation on or after January 1, 2003 and that reports on a control period basis under paragraph (E)(4)(b)(i) of this rule, by no later than ninety days after the date on which the unit commences commercial operation, provided that this date is during a control period; (If this date does not occur during a control period, the applicable deadline is May 1 immediately following this date.)

(e) for the owner or operator of a NOx budget unit under paragraph (C)(1)(b) of rule 3745-14-01 of this chapter that commences operation on or after January 1, 2003 and that reports on an annual basis under paragraph (E)(4) of this rule, by the later of the following dates:

(i) May 1, 2003; or

(ii) one hundred and eighty days after the date on which the unit commences operation.

(f) for the owner or operator of a NOx budget unit under paragraph (C)(1)(b) of rule 3745-14-01 of this chapter that commences operation on or after January 1, 2003 and that reports on a control period basis under paragraph (E)(4)(b)(ii) of this rule, by one hundred and eighty days after the date on which the unit commences operation, provided that this date is during a control period; (If this date does not occur during a control period, the applicable deadline is May 1 immediately following this date.)

(g) for the owner or operator of a NOx budget unit that has a new stack or flue for which construction is completed after the applicable deadline

under paragraph (A)(3)(a), (A)(3)(b), (A)(3)(c), (A)(3)(d), (A)(3)(e) or (A)(3)(f) of this rule or rule 3745-14-09 of this chapter and that reports on an annual basis under paragraph (E)(4) of this rule, by ninety days after the date on which emissions first exit to the atmosphere through the new stack or flue;

(h) for the owner or operator of a NOx budget unit that has a new stack or flue for which construction is completed after the applicable deadline under paragraph (A)(3)(a), (A)(3)(b), (A)(3)(c), (A)(3)(d), (A)(3)(e) or (A)(3)(f) of this rule or rule 3745-14-09 of this chapter and that reports on a control period basis under paragraph (E)(4)(b)(ii) of this rule, by ninety days after the date on which emissions first exit to the atmosphere through the new stack or flue, provided that this date is during a control period; (If this date does not occur during a control period, the applicable deadline is May 1 immediately following this date.)

(i) for the owner or operator of a unit for which an application for a NOx budget opt-in unit is submitted and not denied or withdrawn, by the date specified under rule 3745-14-09 of this chapter.

(4) Reporting data prior to initial certification.

The owner or operator of a NOx budget unit under paragraph (A)(3)(c), (A)(3)(d), (A)(3)(e) or (A)(3)(f) of this rule shall determine, record and report NOx mass emissions, heat input rate, and any other values required to determine NOx mass emissions (e.g., NOx emission rate and heat input rate, or NOx concentration and stack flow rate) in accordance with 40 C.F.R. 75.70(g), from the date and hour that the unit starts operating until the date and hour on which the continuous emission monitoring system, excepted monitoring system under Appendix D or E of 40 C.F.R. part 75, or excepted monitoring methodology under 40 C.F.R. 75.19, is provisionally certified.

(5) Prohibitions.

(a) No owner or operator of a NOx budget unit shall use any alternative monitoring system, alternative reference method, or any other alternative for the required continuous emission monitoring system without having obtained prior written approval in accordance with paragraph (F) of this rule.

(b) No owner or operator of a NOx budget unit shall operate the unit so as to discharge, or allow to be discharged, NOx emissions to the atmosphere without accounting for all such emissions in accordance with the applicable provisions of this rule and 40 C.F.R. part 75 except as provided for in 40 C.F.R. 75.74.

(c) No owner or operator of a NOx budget unit shall disrupt the continuous emission monitoring system, any portion thereof, or any other approved emission monitoring method, and thereby avoid monitoring and recording NOx mass emissions discharged into the atmosphere, except for periods of recertification or periods when calibration, quality assurance testing, or maintenance is performed in accordance with the applicable provisions of this rule and 40 C.F.R. part 75 except as provided for in 40 C.F.R. 75.74.

(d) No owner or operator of a NOx budget unit shall retire or permanently discontinue use of the continuous emission monitoring system, any component thereof, or any other approved emission monitoring system, except under any one of the following circumstances:

(i) during the period that the unit is covered by an exemption under paragraphs (C)(2) and (D) of rule 3745-14-01 of this chapter that is in effect;

(ii) the owner or operator is monitoring emissions from the unit with another certified monitoring system approved by the director, in accordance with the applicable provisions of this rule and 40 C.F.R. part 75, for use at that unit that provides emission data for the same pollutant or parameter as the retired or discontinued monitoring system; or

(iii) the NOx authorized account representative submits notification of the date of certification testing of a replacement monitoring system for the retired or discontinued monitoring system in accordance with paragraph (B)(2)(b) of this rule.

(B) Initial certification and recertification procedures.

(1) The owner or operator of a NOx budget unit that is subject to an Acid Rain emissions limitation shall comply with the initial certification and recertification procedures of 40 C.F.R. part 75, except that:

(a) if, prior to January 1, 1998, the Administrator approved a petition under 40 C.F.R. 75.17(a) or (b) for apportioning the NOx emission rate measured in a common stack or a petition under 40 C.F.R. 75.66 for an alternative to a requirement in 40 C.F.R. 75.17, the NOx authorized account representative shall resubmit the petition, under paragraph (F)(1) of this rule, to the Administrator to determine if the approval applies under the NOx budget trading program;

(b) for any additional CEMS required under the common stack provisions in 40 C.F.R. 75.72, or for any NOx concentration CEMS used under the

provisions of 40 C.F.R. 75.71(a)(2), the owner or operator shall meet the requirements of paragraph (B)(2) of this rule.

(2) The owner or operator of a NO_x budget unit that is not subject to an Acid Rain emissions limitation shall comply with the following initial certification and recertification procedures. The owner or operator of such a unit that qualifies to use the low mass emissions excepted monitoring methodology under 40 C.F.R. 75.19 or that qualifies to use an alternative monitoring system under subpart E of 40 C.F.R. part 75 shall comply with the following procedures, as modified by paragraph (B)(3) or (B)(4) of this rule. The owner or operator of a NO_x budget unit that is subject to an acid rain emissions limitation and that requires additional CEMS under the common stack provisions in 40 C.F.R. 75.72 or uses a NO_x concentration CEMS under 40 C.F.R. 75.71(a)(2) shall comply with the following procedures.

(a) The owner or operator shall ensure that each monitoring system required by subpart H of 40 C.F.R. part 75 (which includes the automated data acquisition and handling system) successfully completes all of the initial certification testing required under 40 C.F.R. 75.20 by the applicable deadline in paragraph (A)(3) of this rule. In addition, whenever the owner or operator installs a monitoring system in order to meet the requirements of this chapter in a location where no such monitoring system was previously installed, initial certification according to 40 C.F.R. 75.20 is required.

(b) Whenever the owner or operator makes a replacement, modification, or change in a certified monitoring system that may significantly affect the ability of the system to accurately measure or record NO_x mass emissions or heat input rate or to meet the requirements of 40 C.F.R. 75.21 or Appendix B to 40 C.F.R. part 75, the owner or operator shall recertify the monitoring system in accordance with 40 C.F.R. 75.20(b). Furthermore, whenever the owner or operator makes a replacement, modification, or change to the flue gas handling system or the unit's operation that may significantly change the stack flow or concentration profile, the owner or operator shall recertify the continuous emissions monitoring system in accordance with 40 C.F.R. 75.20(b). Examples of changes that require recertification include: replacement of the analyzer, complete replacement of an existing continuous emission monitoring system, or change in location or orientation of the sampling probe or site.

(c) Certification approval process for initial certifications and recertification.

(i) The NO_x authorized account representative shall submit to the Administrator, the U.S. EPA Region 5 office, and the director a written notice of the dates of certification in accordance with

paragraph (D) of this rule.

(ii) The NO_x authorized account representative shall submit to the Administrator, the U.S. EPA Region 5 office, and director a certification application for each monitoring system required under subpart H of 40 C.F.R. part 75. A complete certification application shall include the information specified in subpart H of 40 C.F.R. part 75.

(iii) Except for units using the low mass emission excepted methodology under 40 C.F.R. 75.19, the provisional certification date for a monitor shall be determined in accordance with 40 C.F.R. 75.20(a)(3). A provisionally certified monitor may be used under the NO_x budget trading program for a period not to exceed one hundred twenty days after receipt by the director of the complete certification application for the monitoring system or component thereof under paragraph (B)(2)(c)(ii) of this rule. Data measured and recorded by the provisionally certified monitoring system or component thereof, in accordance with the requirements of 40 C.F.R. part 75, shall be considered valid quality-assured data (retroactive to the date and time of provisional certification), provided that the director does not invalidate the provisional certification by issuing a notice of disapproval within one hundred twenty days of receipt of the complete certification application by the director.

(iv) The director shall issue a written notice of approval or disapproval of the certification application to the owner or operator within one hundred twenty days of receipt of the complete certification application under paragraph (B)(2)(c)(ii) of this rule. In the event the director does not issue such a notice within such one-hundred-twenty-day period, each monitoring system that meets the applicable performance requirements of 40 C.F.R. part 75 and is included in the certification application shall be deemed certified for use under the NO_x budget trading program.

(a) If the certification application is complete and shows that each monitoring system meets the applicable performance requirements of 40 C.F.R. part 75, then the director shall issue a written notice of approval of the certification application within one hundred twenty days of receipt.

(b) A certification application shall be considered complete when all of the applicable information required to be submitted under paragraph (B)(2)(c)(ii) of this rule has been received by the director. If the certification application is not

complete, then the director shall issue a written notice of incompleteness that sets a reasonable date by which the NOx authorized account representative shall submit the additional information required to complete the certification application. If the NOx authorized account representative does not comply with the notice of incompleteness by the specified date, then the director may issue a notice of disapproval under paragraph (B)(2)(c)(iv)(c) of this rule. The one-hundred-twenty-day review period shall not begin prior to receipt of a complete certification application.

(c) If the certification application shows that any monitoring system or component thereof does not meet the performance requirements of this chapter, or if the certification application is incomplete and the requirement for disapproval under paragraph (B)(2)(c)(iv)(b) of this rule has been met, then the director shall issue a written notice of disapproval of the certification application. Upon issuance of such notice of disapproval, the provisional certification is invalidated by the director and the data measured and recorded by each uncertified monitoring system or component thereof shall not be considered valid quality-assured data beginning with the date and hour of provisional certification [as defined under 40 C.F.R. 75.20(a)(3)]. The owner or operator shall follow the procedures for loss of certification in paragraph (B)(2)(c)(v) of this rule for each monitoring system or component thereof which is disapproved for initial certification.

(d) The director may issue a notice of disapproval of the certification status of a monitor in accordance with paragraph (C)(2) of this rule.

(v) If the director issues a notice of disapproval of a certification application under paragraph (B)(2)(c)(iv)(c) of this rule or a notice of disapproval of certification status under paragraph (B)(2)(c)(iv)(d) of this rule, then:

(a) the owner or operator shall substitute the following values, for each hour of unit operation during the period of invalid data specified under 40 C.F.R. 75.20(a)(4)(iii), 40 C.F.R. 75.20(b)(5), 40 C.F.R. 75.20(h)(4) or 40 C.F.R. 75.21(e) and continuing until the date and hour specified under 40 C.F.R. 75.20(a)(5)(i):

(i) for units that the owner or operator intends to monitor or

monitors for NOx emission rate and heat input or intends to determine or determines NOx mass emissions using the low mass emission excepted methodology under 40 C.F.R. 75.19, the maximum potential NOx emission rate and the maximum potential hourly heat input of the unit;

(ii) for units that the owner or operator intends to monitor or monitors for NOx mass emissions using a NOx pollutant concentration monitor and a flow monitor, the maximum potential concentration of NOx and the maximum potential flow rate of the unit under section 2 of Appendix A of 40 C.F.R. part 75.

(b) the NOx authorized account representative shall submit a notification of certification retest dates and a new certification application in accordance with paragraphs (B)(2)(c)(i) and (B)(2)(c)(ii) of this rule;

(c) the owner or operator shall repeat all certification tests or other requirements that were failed by the monitoring system, as indicated in the director's notice of disapproval, no later than thirty unit operating days after the date of issuance of the notice of disapproval.

(3) The owner or operator of a gas fired or oil fired unit using the low mass emissions excepted methodology under 40 C.F.R. 75.19 and not subject to an Acid Rain emission limitation shall meet the applicable general operating requirements of 40 C.F.R. 75.10 and the applicable requirements of 40 C.F.R. 75.19. The owner or operator of such a unit shall also meet the applicable certification and recertification procedures of paragraph (B)(2) of this rule, except that the excepted methodology shall be deemed provisionally certified for use under the NOx budget trading program as of the following dates:

(a) for a unit that does not have monitoring equipment initially certified or recertified for the NOx budget trading program as of the date on which the NOx authorized account representative submits the certification application under 40 C.F.R. 75.19 for the unit, starting on the date of such submissions until the completion of the period for the director's review;

(b) for a unit that has monitoring equipment initially certified or recertified for the NOx budget trading program as of the date on which the NOx authorized account representative submits the certification application under 40 C.F.R. 75.19 for the unit and that reports data on an annual basis under paragraph (E)(4) of this rule, starting January 1 of the year

after the year of such submission until the completion of the period for the director' review;

(c) for a unit that has monitoring equipment initially certified or recertified for the NOx budget trading program as of the date on which the NOx authorized account representative submits the certification application under 40 C.F.R. 75.19 for the unit and that reports on a control period basis under paragraph (E)(4) of this rule, starting May 1 of the control period after the year of such submission until the completion of the period for the director's review.

(4) The NOx authorized account representative of each unit not subject to an Acid Rain emissions limitation for which the owner or operator intends to use an alternative monitoring system approved by the Administrator under subpart E of 40 C.F.R. part 75, shall comply with the applicable certification procedures in paragraph (B)(2) of this rule before using the system under the NOx budget trading program. The NOx authorized account representative shall also comply with the applicable recertification procedures in paragraph (B)(2)(c) of this rule. The requirements of 40 C.F.R. 75.20(f) shall apply to such alternative monitoring system.

(C) Out of control periods.

(1) Whenever any monitoring system fails to meet the quality assurance or data validation requirements of 40 C.F.R. part 75, data shall be substituted using the applicable procedures in subpart D, Appendix D, or Appendix E of 40 C.F.R. part 75.

(2) Whenever both an audit of a monitoring system and a review of the initial certification or recertification application reveal that any system or component should not have been certified or recertified because it did not meet a particular performance specification or other requirement under paragraph (B) of this rule or the applicable provisions of 40 C.F.R. part 75, both at the time of the initial certification or recertification application submission and at the time of the audit, the director shall issue a notice of disapproval of the certification status of such system or component. For the purposes of this paragraph, an audit shall be either a field audit or an audit of any information submitted to the director or the Administrator. By issuing the notice of disapproval, the director revokes prospectively the certification status of the system or component. The data measured and recorded by the system or component shall not be considered valid quality-assured data from the date of issuance of the notification of the revoked certification status until the date and time that the owner or operator completes subsequently approved initial certification or recertification tests for the system or component.

(D) The NOx authorized account representative for a NOx budget unit shall submit

written notice of certification and recertification test dates to the director and the Administrator in accordance with 40 C.F.R. 75.61, except that if a unit is not subject to an Acid Rain emission limitation, notification is only required to be sent to the director.

(E) Record keeping and reporting.

(1) General provisions

- (a) The NOx authorized account representative shall comply with all record keeping and reporting requirements in this rule and with the requirements of paragraph (A)(5) of rule 3745-14-02 of this chapter.
- (b) If the NOx authorized account representative for a NOx budget unit subject to an acid rain emission limitation who signed and certified any submission that is made under subpart F or G of 40 C.F.R. part 75 and which includes data and information required under this rule or subpart H of 40 C.F.R. part 75 is not the same person as the designated representative or the alternative designated representative for the unit under 40 C.F.R. part 72, then the submission shall also be signed by the designated representative or the alternative designated representative.

(2) Monitoring plans.

- (a) The owner or operator of a unit subject to an Acid Rain emissions limitation shall comply with the requirements of 40 C.F.R. 75.62, except that the monitoring plan shall also include all of the information required by subpart H of 40 C.F.R. part 75.
 - (b) The owner or operator of a unit that is not subject to an Acid Rain emissions limitation shall comply with the requirements of 40 C.F.R. 75.62, except that the monitoring plan is only required to include the information required by subpart H of 40 C.F.R. part 75.
- (3) The NOx authorized account representative shall submit an application to the Administrator, U.S. EPA Region 5 office, and the director within forty-five days after completing all initial certification or recertification tests required under paragraph (B) of this rule including the information required under subpart H of 40 C.F.R. part 75.
- (4) The NOx authorized account representative shall submit quarterly reports as follows:
- (a) If a unit is subject to an Acid Rain emission limitation or if the owner or operator of the NOx budget unit chooses to meet the annual reporting requirements of this rule, the NOx authorized account representative shall submit a quarterly report for each calendar quarter beginning with:

- (i) for a unit for which the owner or operator intends to apply or applies for the early reduction credit under paragraph (D) of rule 3745-14-05 of this chapter, the calendar quarter that includes the date of initial provisional certification under paragraph (B)(2)(c)(iii) or (B)(3) of this rule. Data shall be reported from the date and hour corresponding to the date and hour of provisional certification; or
 - (ii) for a unit that commences operation on or before May 1, 2003 and that is not subject to paragraph (E)(4)(a)(i) of this rule, the earlier of the calendar quarter that includes the date of initial provisional certification under paragraph (B)(2)(c)(iii) or (B)(3) of this rule or, if the certification tests are not completed by May 1, 2003, the calendar quarter covering May 1, 2003 through June 30, 2003. Data shall be recorded and reported from the earlier of the date and hour corresponding to the date and hour of provisional certification or the first hour on May 1, 2003; or
 - (iii) for a unit that commences operation after May 1, 2003, the calendar quarter in which the unit commences operation. Data shall be reported from the date and hour corresponding to when the unit commenced operation.
- (b) If a NOx budget unit is not subject to an Acid Rain emission limitation, then the NOx authorized account representative shall either:
- (i) meet all of the requirements of 40 C.F.R. part 75 related to monitoring and reporting NOx mass emissions during the entire year and meet the reporting deadlines specified in paragraph (E)(4)(a) of this rule; or
 - (ii) submit quarterly reports covering the period May 1 through September 30 of each year and including the data described in 40 C.F.R. 75.74(c)(6). The NOx authorized account representative shall submit such quarterly reports, beginning with:

 - (a) for a unit for which the owner or operator intends to apply or applies for early reduction credit under paragraph (D) of rule 3745-14-05 of this chapter, the calendar quarter that includes the date of initial provisional certification under paragraph (B)(2)(c)(iii) or (B)(3) of this rule. Data shall be recorded and reported from the date and hour corresponding to the date and hour of provisional certification; or
 - (b) for a unit that commences operation on or before May 1, 2003 and that is not subject to paragraph (E)(4)(b)(i) of this rule,

the calendar quarter covering May 1 through June 30, 2003. Data shall be recorded and reported from the earlier of the date and hour corresponding to the date and hour of initial certification under paragraph (B)(2)(c)(iii) or (B)(3) of this rule or the first hour of May 1, 2003; or

(c) for a unit that commences operation after May 1, 2003 and during a control period, the calendar quarter in which the unit commences operation. Data shall be reported from the date and hour corresponding to when the unit commences operation; or

(d) for a unit that commences operation after May 1, 2003 and not during a control period, the calendar quarter covering the first control period after the unit commences operation. Data shall be recorded and reported from the earlier of the date and hour corresponding to the date and hour of initial provisional certification under paragraph (B)(2)(c)(iii) or (B)(3) of this rule or the first hour of May 1 of the first control period after the unit commences operation.

(c) The NO_x authorized account representative shall submit each quarterly report to the Administrator within thirty days following the end of the calendar quarter covered by the report. Quarterly reports shall be submitted in the manner specified in subpart H of 40 C.F.R. part 75 and 40 C.F.R. 75.64.

(i) For units subject to an Acid Rain emissions limitation, quarterly reports shall include all of the data and information required in subpart H of 40 C.F.R. part 75 for each NO_x budget unit (or group of units using a common stack) and the data and information required in subpart G of 40 C.F.R. part 75.

(ii) For units not subject to an Acid Rain emissions limitation, quarterly reports are only required to include all of the data and information required in subpart H of 40 C.F.R. part 75 for each NO_x budget unit (or group of units using a common stack).

(d) The NO_x authorized account representative shall submit to the Administrator a compliance certification in support of each quarterly report based on reasonable inquiry of those persons with primary responsibility for ensuring that all of the unit's emissions are correctly and fully monitored. The compliance certification shall state that:

(i) the monitoring data submitted were recorded in accordance with the applicable requirements of this rule and 40 C.F.R. part 75.

including the quality assurance procedures and specifications:

- (ii) for a unit with add-on NOx emission controls and for all hours where data are substituted in accordance with 40 C.F.R. 75.34(a)(1), the add-on emission controls were operating within the range of parameters listed in the quality assurance/quality control program under Appendix B of 40 C.F.R. part 75 and the substitute values do not systematically underestimate NOx emissions; and
- (iii) for a unit that is reporting on a control period basis under paragraph (E)(4)(d)(ii) of this rule, the NOx emission rate and NOx concentration values substituted for missing data under subpart D of 40 C.F.R. part 75 are calculated using only values from a control period and do not systematically underestimate NOx emissions.

(F) Petitions.

- (1) The NOx authorized account representative of a NOx budget unit that is subject to an Acid Rain emission limitation may submit a petition under 40 C.F.R. 75.66 to the Administrator requesting approval to apply an alternative to any requirement of this rule.
 - (a) Application of an alternative to any requirement of this rule shall be in accordance with this rule only to the extent that the petition is approved by the Administrator in consultation with the director.
 - (b) Notwithstanding paragraph (F)(1)(a) of this rule, if the petition requests approval to apply an alternative to a requirement concerning any additional CEMS required under the common stack provisions of 40 C.F.R. 75.72, the petition shall be governed by paragraph (F)(2) of this rule.
- (2) The NOx authorized account representative of a NOx budget unit that is not subject to an Acid Rain emission limitation may submit a petition under 40 C.F.R. 75.66 to the director and the Administrator requesting approval to apply an alternative to any requirement of this rule.
 - (a) The NOx authorized account representative of a NOx budget unit that is subject to an Acid Rain emission limitation may submit a petition under 40 C.F.R. 75.66 to the director and the Administrator requesting approval to apply an alternative to a requirement concerning any additional CEMS required under the common stack provisions of 40 C.F.R. 75.72 or a NOx concentration CEMS used under 40 C.F.R. 75.71(a)(2).

(b) Application of an alternative to any requirement of this rule shall be in accordance with this rule only to the extent the petition under paragraph (F)(2) of this rule is approved by both the director and the Administrator.

(G) Additional requirements to provide heat input data for allocation purposes.

The owner or operator of a NOx budget unit that monitors and reports NOx mass emissions using a NOx concentration system and a flow system shall also monitor and report heat input rate at the unit level using the procedures set forth in 40 C.F.R. part 75.
