Re: Finding of Violation
Tennessee Auto Salvage, Inc.
2082 Duncan Lane
Greenbrier, Tennessee

Dear Mr. Duncan:

The U.S. Environmental Protection Agency is issuing the enclosed Finding of Violation (FOV) to Tennessee Auto Salvage, Inc. (you) related to activities at your Greenbrier, Tennessee facility. EPA finds that you have violated the Clean Air Act (CAA), 42 U.S.C. § 7401 *et seq.*, and federal regulations implementing the CAA for the Protection of Stratospheric Ozone, 40 C.F.R. Part 82, Subpart F.

EPA has several enforcement options under Section 113(a)(3) of the CAA, 42 U.S.C. § 7413(a)(3). These options include issuing an administrative compliance order, issuing an administrative penalty order, and bringing a civil and/or criminal action in federal court.

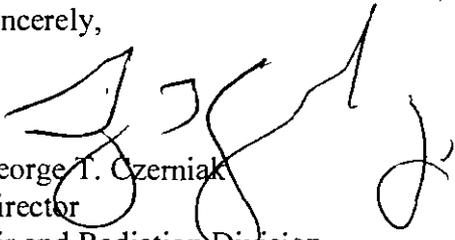

We are offering you an opportunity to confer with us, either in person or by telephone, about the violations alleged in the FOV. The conference will give you the opportunity to present information on the specific findings of violation, the efforts you have taken to comply, and the steps you will take to prevent future violations. In addition, in order to make the conference more productive, we encourage you to submit to us information responsive to the FOV prior to the conference date.

The EPA contact in this matter is Jeffrey Bratko. You may call him at (312) 886-6816 to request a conference. You should make the request within 10 calendar days following your receipt of this letter.

The conference, should you elect to have one, should be held within 30 calendar days from your receipt of this letter. Please plan for your facility's technical and management personnel to

attend the conference to discuss compliance measures and commitments. You may have an attorney represent you at this conference.

Sincerely,

George T. Czerniak
Director
Air and Radiation Division

FINDING OF VIOLATION

The U.S. Environmental Protection Agency (EPA) finds that Tennessee Auto Salvage, Inc. is violating the Clean Air Act, 42 U.S.C. § 7401 *et seq.* (CAA). Specifically, Tennessee Auto Salvage, Inc. is failing to reduce emissions of ozone-depleting substances as required by 40 C.F.R. Part 82, Subpart F.

Statutory and Regulatory Authority

1. Section 302(e) of the CAA, 42 U.S.C. § 7602(e), defines the term “person” to include an individual, corporation, partnership, and association and any officer, agent, or employee thereof.
2. Section 608 of the CAA, 42 U.S.C. § 7671g, among other things, requires EPA to promulgate regulations that establish standards and requirements regarding the use and disposal of class I and class II refrigerants.
3. Pursuant to Section 608 of the CAA, EPA promulgated regulations at 40 C.F.R. Part 82, Protection of Stratospheric Ozone, Subpart F, Recycling and Emissions Reduction.
4. The regulations at 40 C.F.R. Part 82, Subpart F, Recycling and Emissions Reduction, apply to, among others, persons disposing of appliances, including small appliances and motor vehicle air conditioners (MVAC). 40 C.F.R. § 82.150(b).
5. The purpose of the regulations, in part, is to reduce emissions of class I and class II refrigerants and their substitutes to the lowest achievable level during the service, maintenance, repair, and disposal of appliances. 40 C.F.R. § 82.150(a).

6. The Subpart F regulations provide that “disposal” means “the process leading to and including: (1) the discharge, deposit, dumping or placing of any discarded appliance into or on any land or water; (2) the disassembly of any appliance for discharge, deposit, dumping or placing of its discarded component parts into or on any land or water; or (3) the disassembly of any appliance for reuse of its component parts.” 40 C.F.R. § 82.152.
7. The regulations at 40 C.F.R. § 82.156(f) require persons (including scrap recyclers and landfill operators) who take the final step in the disposal process of a small appliance, room air conditioning unit, MVAC, or MVAC-like appliance to either:
 - a. Recover any remaining refrigerant from the appliance in accordance with specific procedures described in 40 C.F.R. § 82.156(g) or (h); or
 - b. Verify in accordance with specific procedures, as set forth in the regulations at 40 C.F.R. § 82.156(f)(2) and (3), that the refrigerant has been evacuated from the appliance or shipment of appliances. A compliant verification may be a signed statement from the person from whom the appliance or shipment of appliances is obtained that all refrigerant that had not leaked previously has been recovered from the appliances or shipment of appliances. This statement must include the name and address of the person who recovered the refrigerant and the date the refrigerant was recovered or a contract that refrigerant will be removed prior to delivery. 40 C.F.R. § 82.156(f)(2). Any signed statements must be maintained on-site for a minimum of three years. 40 C.F.R. §§ 82.166(i) and (m).

Finding of Fact

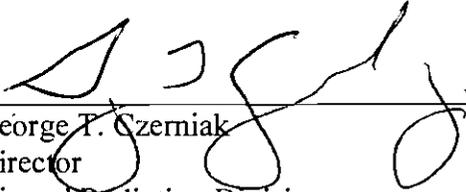

8. Tennessee Auto Salvage, Inc. owns and/or operates a scrap metal recycling facility at 2082 Duncan Lane, Greenbrier, Tennessee (the facility).
9. At all times pertinent to this finding of violation, Tennessee Auto Salvage, Inc. is a “person” that took the final step in the disposal process of a small appliance, room air conditioner, MVAC, or MVAC-like appliance.
10. On May 5, 2014, EPA inspected the facility to assess Tennessee Auto Salvage, Inc.’s compliance with regulations governing the handling of refrigerant under the CAA.
11. During the May 5, 2014, inspection, EPA observed motor vehicles at the facility that were accepted for disposal as scrap metal.
12. During the May 5, 2014, inspection, a representative of Tennessee Auto Salvage, Inc. told EPA inspectors that Tennessee Auto Salvage, Inc., did not currently own or operate working refrigerant recovery equipment at the facility.
13. During the May 5, 2014, inspection, a Tennessee Auto Salvage, Inc. representative stated that Tennessee Auto Salvage, Inc. does not have contracts with or require written statements from its suppliers verifying that refrigerant had been properly recovered prior to the delivery of motor vehicles to its facility.

Finding of Violation

14. Tennessee Auto Salvage, Inc.'s failure to either recover refrigerant from MVACs as described above, or to verify via a signed statement that the refrigerant had been properly recovered, violates 40 C.F.R § 82.156(f) and therefore violates section 608 of the CAA.
