RE: 2004 through 2006 Major Project Performed at Menasha Municipal Power Plant

Dear Mr. Verhagen:

Recently, it has come to the U.S. Environmental Protection Agency's attention that from September 2004 through March 2006 Menasha Utility performed a major project on Boiler 3 and Boiler 4 at its power plant located in Menasha, Wisconsin. EPA has determined that this project triggered the Prevention of Significant Deterioration requirements under Section 165 of the Act, 42 U.S.C. § 7475, and the Wisconsin Administrative Code Chapter 405, and the requirement to apply for or amend the utility's Title V permit under Title V of the Clean Air Act and Wisc. Admin. Code 407.

In light of this determination, EPA would like to meet with you within the next few weeks to discuss Menasha's future plans for the utility. Please contact James Zimny at (312) 886-6082 or Ethan Chatfield at (312) 886-5112 to set up the meeting.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Cheryl L. Newton".

Cheryl L. Newton  
Director  
Air and Radiation Division

Enclosure
