STATUTORY AUTHORITY

The following findings are made and Administrative Compliance Order (Order) issued under the authority vested in the Administrator of the United States Environmental Protection Agency (EPA), by Section 113(a)(3) of the Clean Air Act (Act), 42 U.S.C. § 7413(a)(3). The Administrator has delegated the authority to issue this Order to the Regional Administrator of EPA Region 6 who has further delegated such authority to the Director of the Compliance Assurance and Enforcement Division.

FINDINGS

1. Respondent, TGGT Holdings, LLC, is a "person" as defined by Section 302(e) of the Act, 42 U.S.C. § 7602(e).
2. At all times relevant to the violation alleged herein, Respondent operated the Holly Common Point #10 Dehydration Lateral Station located in Frierson, DeSoto Parish, Louisiana (the "Facility").
3. The Facility is a "stationary source" as defined by Section 112(r)(2)(C) of the Act, 42 U.S.C. 7412(r)(2)(C).
4. On November 16, 2011, EPA inspectors utilized the FLIR® Gas Finder Infrared Camera and observed a release of pollutants from hatches on Tank Nos. 2 and 3 at the Facility.
5. Based on observations using the FLIR® Gas Finder Infrared Camera, and process knowledge, the EPA inspectors determined that the release of pollutants described in paragraph four (4) contained methane.
6. Methane is a highly flammable and/or explosive substance.
7. An extremely hazardous substance under Section 112(r) of the Act, 42 U.S.C. § 7412(r) includes, but is not limited to, methane. The release as described in paragraph four (4) is potentially subject to explosive levels of methane.
8. Section 112(r)(1) of the Act, 42 U.S.C. § 7412(r)(1), requires owners and operators to design and maintain a safe facility, taking such steps as are necessary to prevent releases of extremely hazardous substances.

ORDER

Based on these findings and pursuant to the authority of Section 113(a)(3) of the Act, 42 U.S.C. § 7413(a)(3), EPA orders that Respondent take the following actions upon receipt of this Order:

1. Fix, repair, or replace the leaking components that led to the release of an extremely hazardous substance as described in paragraph four (4), upon receipt of this Order.
2. Within fifteen (15) days of the receipt of this Order, Respondent shall provide written certification to the EPA, Region 6, that the activities required in the previous paragraph have been completed and shall include any supporting documents such as receipts and invoices. The written certification and supporting documentation shall be addressed to Mr. David F. Respondent shall sign and certify under penalty of law that the certification and supporting documentation are true, accurate, and not misleading.

GENERAL PROVISIONS

Issuance of this Order shall not be deemed an election by EPA to waive any administrative, judicial, civil or criminal action to seek penalties, fines or other relief under the Act for the violation alleged herein or other violations which may become known to EPA. EPA reserves the right to seek any remedy available under the law which it deems appropriate.

Failure to comply with this Order or the Act may result in the initiation of an administrative penalty action by EPA or a civil judicial penalty action by the U.S. Department of Justice.
