

major for precursors of ozone, including volatile organic compounds and nitrogen oxides.

**R307-401-20. Relaxation of Limitations.**

At a time that a source or modification to be located in a nonattainment or maintenance area or which would impact a nonattainment or maintenance area becomes a major source or major modification because of a relaxation of any enforceable limitation which was established after August 7, 1980, on the capacity of a source or modification otherwise to emit a pollutant, such as a restriction on the hours of operation, then the preconstruction requirements shall apply to the source as though construction had not yet commenced on the source or modification.
