RE: Final – Authority to Construct/Certificate of Conformity (Minor Mod)
Facility Number: S-334
Project Number: S-1132528

Dear Mr. Wright:

The Air Pollution Control Officer has issued the Authority to Construct permit to Pregis Innovative Packaging, Inc. to modify the existing RTS trim line by installing a new cyclone, screw conveyor, and a 75 hp Granutec grinder in series with the existing trim choppers. The cyclone, conveyor, and grinder will be controlled by the existing Farr GS8 baghouse, at 8201 W. Elowin Court, Visalia. Please note the facility will install a screw conveyor instead of the rotary feeder identified in the preliminary decision. There will be no change in emissions as a result of this modification.

Enclosed are the Authority to Construct permit and invoice for the engineering evaluation fees pursuant to District Rule 3010. The District's analysis of the proposal was sent to US EPA Region IX on February 25, 2014. No comments were received following the District's preliminary decision on this project.

Prior to operating with modifications authorized by the Authority to Construct, you must submit an application to modify the Title V permit as an administrative amendment in accordance with District Rule 2520, Section 11.5.
