Project # S1133526**

Dear Mr. Pritchett:

The Air Pollution Control Officer has modified the Title V permit for Chevron USA, Inc. by incorporating S-2010-315-0. The ATC authorized the installation of a 100 barrel (Bbl) fixed roof emergency drain/relief tank at Gauge Setting #10 in Chevron's Light Oil Western Stationary Source.

Enclosed is the modified Title V permit. The application and proposal were sent to US EPA Region IX on April 9, 2014. No comments were received following the District's preliminary decision on this project.

Thank you for your cooperation in this matter. If you have any questions, please contact Mr. Leonard Scandura, Permit Services Manager, at (661) 392-5500.

Sincerely,
