Subject RE: Proposed Title V Permit Revision Review - Prime Wheel
(ID 105903)

Kien,

Thank you for the opportunity to review the proposed revision to the title V permit for Prime Wheel. In accordance with South Coast AQMD regulations and 40 C.F.R. § 70.8(c), EPA has 45 days from receipt of the proposed permit and all necessary supporting documentation to object in writing to its issuance. Because EPA received the proposed permit on April 4, 2007, our review period is scheduled to end on May 18. However, due to resource limitations, EPA does not intend to review the proposed permit and is therefore terminating its review period early.

Please note that if the permit is later found to require corrective steps (including, but not limited to, reopening the permit for cause), the expiration of EPA's review period without EPA objection does not compromise the Agency's authority to take such measures.

If you have any questions or wish to discuss this further, please feel free to contact me. Thanks,

Joe
